Residents of the City of Fairview Heights have an inalienable interest in their personal safety, well-being and privacy in their residences, as well as their ability to provide or receive information regarding matters of personal belief, political or charitable activities and goods and services lawfully in commerce. The City has a substantial interest in protecting the well-being, tranquility, personal safety and privacy of its citizens, which includes the ability to protect citizens from unwanted intrusions upon residential or commercial property. The City also has a substantial interest in protecting citizens from fraud or otherwise unfair consumer sales practices as well as criminal activity.

(B) General Statement of Policy. There must be a balance between these substantial interests of the City and its citizens, and the effect of the regulations in this Article on the rights of those who are regulated. Based on the collective experiences of City officials derived from regulating business activity, protecting persons and property from criminal conduct, responding to the inquiries of citizens regarding door-to-door and on street solicitation and canvassing, the experience of its law enforcement officers and those affected by door-to-door and on street solicitation and canvassing, as well as judicial decisions outlining the boundaries of constitutional protections afforded and denied persons seeking to engage in door-to-door and on street solicitation and canvassing, the City adopts this Article to promote the City's substantial interests in:

It is the purpose of the City Council in enacting this Article to provide a fair and impartial means of distributing City requests for towing services among qualified firms, and to ensure that such services are prompt and reasonably priced and are provided in the best interest of the public, as well as the interest of efficient removal of such vehicles. In enacting this Article, it is not the purpose of the Council to regulate towing services other than those dispatched or requested by City personnel. Nothing in this Article shall prohibit the Chief of Police from enacting rules and regulations for the effective administration of tow operations in the City.

8-15-4  ROSTER. All firms selected and designated to provide towing services under this Article shall be listed on a roster to be kept by the police department. The roster of towing firms shall be effective for a period of **two (2) years** commencing **January 1, 2017**.

### 9-2-3 REGULATION OF SMALL WIRELESS FACILITIES.

(A) **Permitted Use.** Small wireless facilities shall be classified as permitted uses and subject to administrative review, except as provided in Section 9-2-3(C)(9) regarding Height Exceptions or Variances, but not subject to zoning review or approval if they are collocated (i) in rights-of-way in any zoning district, or (ii) outside rights-of-way in property zoned exclusively for commercial or industrial use.

(B) **Permit Required.** An applicant shall obtain one or more permits from the City to collocate a small wireless facility. An application shall be received and processed, and permits issued shall be subject to the following conditions and requirements:

1. **Application Requirements.** A wireless provider shall provide the following information to the City, together with the City’s Small Cell Facilities Permit Application, as a condition of any permit application to collocate small wireless facilities on a utility pole or wireless support structure:

   a. Site specific structural integrity and, for a municipal utility pole, make-ready analysis prepared by a structural engineer, as that term is defined in Section 4 of the Structural Engineering Practice Act of 1989;

   b. The location where each proposed small wireless facility or utility pole would be installed and photographs of the location and its immediate surroundings depicting the utility poles or structures on which each proposed small wireless facility would be mounted or location where utility poles or structures would be installed. This should include a depiction of the completed facility;

   c. Specifications and drawings prepared by a structural engineer, as that term is defined in Section 4 of the Structural Engineering Practice Act of 1989, for each proposed small wireless facility covered by the application as it is proposed to be installed;

   d. The equipment type and model numbers for the antennas and all other wireless equipment associated with the small wireless facility;

   e. A proposed schedule for the installation and completion of each small wireless facility covered by the application, if approved; and

   f. Certification that the collocation complies with the Collocation Requirements and Conditions contained herein, to the best of the applicant’s knowledge.
(g) In the event that the proposed small wireless facility is to be attached to an existing pole owned by an entity other than the City, the wireless provider shall provide legally competent evidence of the consent of the owner of such pole to the proposed collocation.

(2) **Application Process.** The City shall process applications as follows:

(a) The first completed application shall have priority over applications received by different applicants for collocation on the same utility pole or wireless support structure.

(b) An application to collocate a small wireless facility on an existing utility pole or wireless support structure, or replacement of an existing utility pole or wireless support structure shall be processed on a nondiscriminatory basis and shall be deemed approved if the City fails to approve or deny the application within **ninety (90) days** after the submission of a completed application. However, if an applicant intends to proceed with the permitted activity on a deemed approved basis, the applicant shall notify the City in writing of its intention to invoke the deemed approved remedy no sooner than **seventy-five (75) days** after the submission of a completed application. The permit shall be deemed approved on the latter of the ninetieth (90th) day after submission of the complete application or the tenth (10th) day after the receipt of the deemed approved notice by the City. The receipt of the deemed approved notice shall not preclude the City’s denial of the permit request within the time limits as provided under this Article.

(c) An application to collocate a small wireless facility that includes the installation of a new utility pole shall be processed on a nondiscriminatory basis and deemed approved if the City fails to approve or deny the application within **one hundred twenty (120) days** after the submission of a completed application. However, if an applicant intends to proceed with the permitted activity on a deemed approved basis, the applicant shall notify the City in writing of its intention to invoke the deemed approved remedy no sooner than **one hundred five (105) days** after the submission of a completed application. The permit shall be deemed approved on the latter of the one hundred twentieth (120th) day after submission of the complete application or the tenth (10th) day after the receipt of the deemed approved notice by the City. The receipt of the deemed approved notice shall not preclude the City’s denial of the permit request within the time limits as provided under this Article.
(d) The City shall deny an application which does not meet the requirements of this Article. If the City determines that applicable codes, ordinances or regulations that concern public safety, or the Collocation Requirements and Conditions contained herein require that the utility pole or wireless support structure be replaced before the requested collocation, approval shall be conditioned on the replacement of the utility pole or wireless support structure at the cost of the provider. The City shall document the basis for a denial, including the specific code provisions or application conditions on which the denial is based, and send the documentation to the applicant on or before the day the City denies an application.

The applicant may cure the deficiencies identified by the City and resubmit the revised application once within thirty (30) days after notice of denial is sent to the applicant without paying an additional application fee. The City shall approve or deny the revised application within thirty (30) days after the applicant resubmits the application or it is deemed approved. Failure to resubmit the revised application within thirty (30) days of denial shall require the applicant to submit a new application with applicable fees, and recommencement of the City’s review period.

The applicant must notify the City in writing of its intention to proceed with the permitted activity on a deemed approved basis, which may be submitted with the revised application.

Any review of a revised application shall be limited to the deficiencies cited in the denial. However, this revised application does not apply if the cure requires the review of a new location, new or different structure to be collocated upon, new antennas, or other wireless equipment associated with the small wireless facility.

(e) **Pole Attachment Agreement.** Within thirty (30) days after an approved permit to collocate a small wireless facility on a municipal utility pole, the City and the applicant shall enter into a Master Pole Attachment Agreement, provided by the City for the initial collocation on a municipal utility pole by the application. For subsequent approved permits to collocate on a small wireless facility on a municipal utility pole, the City and the applicant shall enter into a License Supplement of the Master Pole Attachment Agreement.

(3) **Completeness of Application.** Within thirty (30) days after receiving an application, the City shall determine whether the application is complete and notify the applicant. If an application is incomplete, the City must specifically identify the missing
information. An application shall be deemed complete if the City fails to provide notification to the applicant within thirty (30) days after all documents, information and fees specifically enumerated in the City’s permit application form are submitted by the applicant to the City.

Processing deadlines are tolled from the time the City sends the notice of incompleteness to the time the applicant provides the missing information.

(4) Tolling. The time period for applications may be further tolled by:
(a) An express written agreement by both the applicant and the City; or
(b) A local, State or federal disaster declaration or similar emergency that causes the delay.

(5) Consolidated Applications. An applicant seeking to collocate small wireless facilities within the jurisdiction of the City shall be allowed, at the applicant’s discretion, to file a consolidated application and receive a single permit for the collocation of up to twenty-five (25) small wireless facilities if the collocations each involve substantially the same type of small wireless facility and substantially the same type of structure.

If an application includes multiple small wireless facilities, the City may remove small wireless facility collocations from the application and treat separately small wireless facility collocations for which incomplete information has been provided or that do not qualify for consolidated treatment or that are denied. The City may issue separate permits for each collocation that is approved in a consolidated application.

(6) Duration of Permits. The duration of a permit shall be for a period of not less than five (5) years, and the permit shall be renewed for equivalent durations unless the City makes a finding that the small wireless facilities or the new or modified utility pole do not comply with the applicable City codes or any provision, condition or requirement contained in this Article.

If the Act is repealed as provided in Section 90 therein, renewals of permits shall be subject to the applicable City code provisions or regulations in effect at the time of renewal.

(7) Means of Submitting Applications. Applicants shall submit applications, supporting information and notices to the City by personal delivery at the City’s designated place of business, by regular mail postmarked on the date due or by any other commonly used means, including electronic mail.

(C) Collocation Requirements and Conditions.

(1) Public Safety Space Reservation. The City may reserve space on municipal utility poles for future public safety uses, for the City’s electric utility uses, or both, but a reservation of space may not preclude the collocation of a small wireless facility unless the City reasonably determines that the municipal utility pole cannot accommodate both uses.
(2) **Installation and Maintenance.** The wireless provider shall install, maintain, repair and modify its small wireless facilities in safe condition and good repair and in compliance with the requirements and conditions of this Article. The wireless provider shall ensure that its employees, agents or contractors that perform work in connection with its small wireless facilities are adequately trained and skilled in accordance with all applicable industry and governmental standards and regulations.

(3) **No Interference with Public Safety Communication Frequencies.** The wireless provider’s operation of the small wireless facilities shall not interfere with the frequencies used by a public safety agency for public safety communications.

A wireless provider shall install small wireless facilities of the type and frequency that will not cause unacceptable interference with a public safety agency’s communications equipment.

Unacceptable interference will be determined by and measured in accordance with industry standards and the FCC’s regulations addressing unacceptable interference to public safety spectrum or any other spectrum licensed by a public safety agency.

If a small wireless facility causes such interference, and the wireless provider has been given written notice of the interference by the public safety agency, the wireless provider, at its own expense, shall remedy the interference in a manner consistent with the abatement and resolution procedures for interference with public safety spectrum established by the FCC including 47 CFR 22.970 through 47 CFR 22.973 and 47 CFR 90.672 through 47 CFR 90.675.

The City may terminate a permit for a small wireless facility based on such interference if the wireless provider is not in compliance with the Code of Federal Regulations cited in the previous paragraph. Failure to remedy the interference as required herein shall constitute a public nuisance.

(4) The wireless provider shall not collocate small wireless facilities on City utility poles that are part of an electric distribution or transmission system within the communication worker safety zone of the pole or the electric supply zone of the pole.

However, the antenna and support equipment of the small wireless facility may be located in the communications space on the City utility pole and on the top of the pole, if not otherwise unavailable, if the wireless provider complies with applicable codes for work involving the top of the pole.

For purposes of this subparagraph, the terms “communications space”, “communication worker safety zone”, and “electric supply zone” have the meanings given to those terms in the National Electric Safety Code as published by the Institute of Electrical and Electronics Engineers.

(5) The wireless provider shall comply with all applicable codes and local code provisions or regulations that concern public safety.
(6) The wireless provider shall comply with written design standards that are generally applicable for decorative utility poles, or reasonable stealth, concealment and aesthetic requirements that are set forth in a City ordinance, written policy adopted by the City, a comprehensive plan or other written design plan that applies to other occupiers of the rights-of-way, including on a historic landmark or in a historic district.

(7) **Alternate Placements.** Except as provided in this Collocation Requirements and Conditions Section, a wireless provider shall not be required to collocate small wireless facilities on any specific utility pole, or category of utility poles, or be required to collocate multiple antenna systems on a single utility pole. However, with respect to an application for the collocation of a small wireless facility associated with a new utility pole, the City may propose that the small wireless facility be collocated on an existing utility pole or existing wireless support structure within **one hundred (100) feet** of the proposed collocation, which the applicant shall accept if it has the right to use the alternate structure on reasonable terms and conditions, and the alternate location and structure does not impose technical limits or additional material costs as determined by the applicant.

If the applicant refuses a collocation proposed by the City, the applicant shall provide written certification describing the property rights, technical limits or material cost reasons the alternate location does not satisfy the criteria in this paragraph.

(8) **Height Limitations.** The maximum height of a small wireless facility shall be no more than **ten (10) feet** above the utility pole or wireless support structure on which the small wireless facility is collocated.

New or replacement utility poles or wireless support structures on which small wireless facilities are collocated may not exceed the higher of:

(a) **ten (10) feet** in height above the tallest existing utility pole, other than a utility pole supporting only wireless facilities, that is in place on the date the application is submitted to the City, that is located within **three hundred (300) feet** of the new or replacement utility pole or wireless support structure and that is in the same right-of-way within the jurisdictional boundary of the City, provided the City may designate which intersecting right-of-way within **three hundred (300) feet** of the proposed utility pole or wireless support structures shall control the height limitation for such facility; or

(b) **forty-five (45) feet** above ground level.

(9) **Height Exceptions or Variances.** If an applicant proposes a height for a new or replacement pole in excess of the above height limitations on which the small wireless facility is proposed for collocation, the applicant shall apply for a variance in
conformance with procedures, terms and conditions as set forth in Section 14-9-9.

(10) **Contractual Design Requirements.** The wireless provider shall comply with requirements that are imposed by a contract between the City and a private property owner that concern design or construction standards applicable to utility poles and ground-mounted equipment located in the right-of-way.

(11) **Ground-mounted Equipment Spacing.** The wireless provider shall comply with applicable spacing requirements in applicable codes and ordinances concerning the location of ground-mounted equipment located in the right-of-way if the requirements include a waiver, zoning or other process that addresses wireless provider requests for exception or variance and do not prohibit granting of such exceptions or variances.

(12) **Undergrounding Regulations.** The wireless provider shall comply with local code provisions or regulations concerning undergrounding requirements that prohibit the installation of new or the modification of existing utility poles in a right-of-way without prior approval if the requirements include a waiver, zoning or other process that addresses requests to install such new utility poles or modify such existing utility poles and do not prohibit the replacement of utility poles.

(13) **Collocation Completion Deadline.** Collocation for which a permit is granted shall be completed within **one hundred eighty (180) days** after issuance of the permit, unless the City and the wireless provider agree to extend this period or a delay is caused by make-ready work for a municipal utility pole or by the lack of commercial power or backhaul availability at the site, provided the wireless provider has made a timely request within **sixty (60) days** after the issuance of the permit for commercial power or backhaul services, and the additional time to complete installation does not exceed **three hundred sixty (360) days** after issuance of the permit. Otherwise, the permit shall be void unless the City grants an extension in writing to the applicant.

(D) **Relocation of Equipment.**

(1) **Notice.** City may request relocation of small wireless facility’s equipment by delivering written notice to small wireless facility identifying the need for such relocation and alternative City Rights-of-Way and/or City facilities to which small wireless facility may relocate its equipment.

(2) **Timeframe.** After receiving notice, small wireless facility shall relocate its equipment to alternative City Rights-of-Way and City facilities identified by City as soon as practicable, but in no event later than **one hundred and eighty (180) days** after receipt of such notice.

(3) **Cost of Relocation.** In the event relocation of equipment is necessitated by construction, repair, maintenance, relocation or elimination of any City Rights-of-Way or City all relocation costs shall be borne by the small wireless facility.
Application Fees. Application fees are imposed as follows:

1. Applicant shall pay an application fee of **Six Hundred Fifty Dollars ($650.00)** for an application to collocate a single small wireless facility on an existing utility pole or wireless support structure, and **Three Hundred Fifty Dollars ($350.00)** for each small wireless facility addressed in a consolidated application to collocate more than one small wireless facility on existing utility poles or wireless support structures.

2. Applicant shall pay an application fee of **One Thousand Dollars ($1,000.00)** for each small wireless facility addressed in an application that includes the installation of a new utility pole for such collocation.

3. Notwithstanding any contrary provision of State law or local ordinance, applications pursuant to this Section shall be accompanied by the required application fee. Application fees shall be non-refundable.

4. The City shall not require an application, approval or permit, or require any fees or other charges, from a communications service provider authorized to occupy the rights-of-way, for:
   a. routine maintenance;
   b. the replacement of wireless facilities with wireless facilities that are substantially similar, the same size, or smaller if the wireless provider notifies the City at least ten (10) days prior to the planned replacement and includes equipment specifications for the replacement of equipment consistent with subsection (d) under the Section titled Application Requirements; or
   c. the installation, placement, maintenance, operation or replacement of micro wireless facilities suspended on cables that are string between existing utility poles in compliance with applicable safety codes.

5. Wireless providers shall secure a permit from the City to work within rights-of-way for activities that affect traffic patterns or require lane closures.

Exceptions to Applicability. Nothing in this Article authorizes a person to collocate small wireless facilities on:

1. property owned by a private party or property owned or controlled by the City or another unit of local government that is not located within rights-of-way, or a privately owned utility pole or wireless support structure without the consent of the property owner;

2. property owned, leased, or controlled by a part district, forest preserve district, or conservation district for public park, recreation or conservation purposes without the consent of the affected district, excluding the placement of facilities on rights-of-way located in an affected district that are under the jurisdiction and control of a different unit of local government as provided by the Illinois Highway Code; or
property owned by a rail carrier registered under Section 18c-7201 of the Illinois Vehicle Code, or any other public commuter rail service, or an electric utility as defined in Section 16-102 of the Public Utilities Act, without the consent of the rail carrier, public commuter rail service, or electric utility. The provisions of this Article do not apply to an electric or gas public utility or such utility’s wireless facilities if the facilities are being used, developed and maintained consistent with the provisions of subsection (i) of Section 16-108.5 of the Public Utilities Act.

For the purposes of this subsection, “public utility” has the meaning given to that term in Section 3-105 of the Public Utilities Act. Nothing in this Article shall be construed to relieve any person from any requirement (a) to obtain a franchise or a State-issued authorization to offer cable service or video service or (b) to obtain any required permission to install, place, maintain, or operate communications facilities, other than small wireless facilities subject to this Article.

(G) **Pre-Existing Agreements.** Existing agreements between the City and wireless providers that relate to the collection of small wireless facilities in the right-of-way, including the collocation of small wireless facilities on City utility poles, that are in effect on June 1, 2018, remain in effect for all small wireless facilities collocated on the City's utility poles pursuant to applications submitted to the City before June 1, 2018, subject to applicable termination provisions contained therein. Agreements entered into after June 1, 2018, shall comply with this Article.

A wireless provider that has an existing agreement with the City on the effective date of the Act may accept the rates, fees and terms that the City makes available under this Article for the collocation of small wireless facilities or the installation of new utility poles for the collocation of small wireless facilities that are the subject of an application submitted two (2) or more years after the effective date of the Act by notifying the City that it opts to accept such rates, fees and terms. The existing agreement remains in effect, subject to applicable termination provisions, for the small wireless facilities the wireless provider has collocated on the City’s utility poles pursuant to applications submitted to the City before the wireless provider provides such notice and exercises its option under this paragraph.

(H) **Annual Recurring Rate.** A wireless provider shall pay to the City an annual recurring rate to collocate a small wireless facility on a City utility pole located in a right-of-way that equals (i) Two Hundred Dollars ($200.00) per year or (ii) the actual, direct and reasonable costs related to the wireless provider’s use of space on the City utility pole.

If the City has not billed the wireless provider actual and direct costs, the fee shall be Two Hundred Dollars ($200.00) payable on the first day after the first annual anniversary of the issuance of the permit or notice of intent to collocate, and on each annual anniversary date thereafter.

(I) **Abandonment.** A small wireless facility that is not operated for a continuous period of twelve (12) months shall be considered abandoned. The owner of the facility shall remove the small wireless facility within ninety (90) days after receipt of written notice from the City notifying the wireless provider of the abandonment.

The notice shall be sent by certified or registered mail, return receipt requested, by the City to the owner at the last known address of the wireless provider. If the small wireless facility is not removed within ninety (90) days of such notice, the City may remove or cause the removal of such facility pursuant to the terms of its pole attachment agreement for
municipal utility poles or through whatever actions are provided for abatement of nuisances or by other law for removal and cost recovery.

A wireless provider shall provide written notice to the City if it sells or transfers small wireless facilities within the jurisdiction of the City. Such notice shall include the name and contact information of the new wireless provider.

9-2-4 DISPUTE RESOLUTION. The Circuit Court of St. Clair County, Illinois shall have exclusive jurisdiction to resolve all disputes arising under the Small Wireless Facilities Deployment Act. Pending resolution of a dispute concerning rates for collocation of small wireless facilities on municipal utility poles within the right-of-way, the City shall allow the collocating person to collocate on its poles at annual rates of no more than Two Hundred Dollars ($200.00) per year per municipal utility pole, with rates to be determined upon final resolution of the dispute.

9-2-5 INDEMNIFICATION. A wireless provider shall indemnify and hold the City harmless against any and all liability or loss from personal injury or property damage resulting from or arising out of, in whole or in part, the use or occupancy of the City improvements or right-of-way associated with such improvements by the wireless provider or its employees, agents, or contractors arising out of the rights and privileges granted under this Article and the Act. A wireless provider has no obligation to indemnify or hold harmless against any liabilities and losses as may be due to or caused by the sole negligence of the City or its employees or agents. A wireless provider shall further waive any claims that they may have against the City with respect to consequential, incidental, or special damages, however caused, based on the theory of liability.

9-2-6 INSURANCE. The wireless provider shall carry, at the wireless provider's own cost and expense, the following insurance:

(A) property insurance for its property's replacement cost against all risks;
(B) workers' compensation insurance, as required by law; or
(C) commercial general liability insurance with respect to its activities on the City improvements or rights-of-way to afford minimum protection limits consistent with its requirements of other users of City improvements or rights-of-way, including coverage for bodily injury and property damage.

The wireless provider shall include the City as an additional insured on the commercial general liability policy and provide certification and documentation of inclusion of the City in a commercial general liability policy prior to the collocation of any wireless facility.

A wireless provider may self-insure all or a portion of the insurance coverage and limit requirement required by the City. A wireless provider that self-insures is not required, to the extent of the self-insurance, to comply with the requirement for the name of additional insureds under this Section. A wireless provider that elects to self-insure shall provide to the City evidence sufficient to demonstrate its financial ability to self-insure the insurance coverage limits required by the City.

9-2-7 SEVERABILITY. If any provision of this Article or application thereof to any person or circumstances is ruled unconstitutional or otherwise invalid, such invalidity shall not affect other provisions or applications of this Article that can be given effect without the invalid application or provision, and each invalid provision or invalid application of this Article is severable.

(C) **Grant Not Exclusive.** The Franchise and the rights granted to use and occupy the Public Rights-of-Way are not exclusive to the Franchisee and do not explicitly or
implicitly preclude the issuance of other franchises to operate Cable Systems or other communications systems within the City, subject to applicable law.

(D) **Franchise Agreement Subject to Exercise of Police Power.** The Franchisee agrees to comply with the terms of any lawfully adopted generally applicable local ordinance, to the extent that the provisions of the ordinance do not have the effect of limiting the benefits or expanding the obligations of the Franchisee that are granted by this Franchise. This Franchise is a contract and except as to those changes which are the result of the City’s lawful exercise of its general police power, the City may not take any unilateral action which materially changes the explicit mutual promises in this contract. Any changes to this Franchise must be made in writing signed by the Franchisee and the City. In the event of any conflict between this Franchise and any City ordinance or regulation, this Franchise will prevail.

(E) **Approval and Effective Date.** This Franchise Agreement shall take effect and be in force from and after final passage thereof, as provided by law, provided that within sixty (60) days after the date of final passage of the Franchise, the Franchisee shall file with the City its acceptance of the Franchise.

(F) **Equal Protection.** If any other provider of cable services or video services (without regard to the technology used to deliver such services) is lawfully authorized by the City or by any other State or federal governmental entity to provide such services using facilities located wholly or partly in the Public Rights-of-Way of the City, the City shall within thirty (30) days of a written request from Franchisee, modify this Franchise to insure that the obligations applicable to Franchisee are no more burdensome than those imposed on the new competing provider. If the City fails to make modifications consistent with this requirement, Franchisee’s Franchise shall be deemed so modified thirty (30) days after the Franchisee’s initial written notice. As an alternative to the Franchise modification request, the Franchisee shall have the right and may choose to have this Franchise with the City be deemed expired thirty (30) days after written notice to the City. Nothing in this Franchise shall impair the right of the Franchisee to terminate this Franchise and, at Franchisee’s option, negotiate a renewal or replacement franchise, license, consent, certificate or other authorization with any appropriate government entity.

(G) **Franchise Transfer.** The Franchise granted hereunder shall not be assigned without prior consent of the City, such consent not to be unreasonably withheld or delayed. No such consent by the City shall be required, however, for a transfer of trust, by mortgagee, or by other hypothecation, or by assignment of any rights, title, or interest of the Franchisee in the Franchise, or Cable System to secure an indebtedness or for a transfer to an entity controlling, controlled by, or under common control with the Franchisee. Within thirty (30) days of receiving a request of transfer, the City shall notify the Franchisee in writing of any additional information it reasonably requires to determine the legal, financial and technical qualifications of the transferee. If the City has not taken action on the Franchisee’s request for transfer within one hundred twenty (120) days after receiving the request, consent by the City shall be deemed given.

**Section 3. Regulation and Oversight.**

(A) **Severability.** If any section, subsection, sentence, clause, phrase, or portion of this Franchise is, for any reason, held invalid or unconstitutional by any court of competent
jurisdiction, such portion shall be deemed a separate, distinct and independent provision and such holding shall not affect the validity of the remaining portions of this Franchise.

Section 4. Provision of Cable Service.

(A) Service Area. The Franchisee shall make Cable Service distributed over the Cable System available to every residence within the Franchise Area where there is a minimum density of at least thirty (30) residences per linear strand mile of cable (excluding any home subscribing to any satellite service) as measured from Franchisee’s closest trunk line or distribution cable that is actively delivering Cable Service as of the date of such request for service. If such residence is located within one hundred twenty-five (125) feet of Franchisee’s feeder cable, the Cable Service will be provided at Franchisee’s published rate for standard installations. Notwithstanding the foregoing, the Franchisee shall have the right, but not the obligation, to extend the Cable System into any portion of the Franchise Area where another video service provider is providing Cable Service or into any annexed area which is not contiguous to the present Franchise Area of the Franchisee. Franchisee shall not be obligated to provide Cable Service to any area which is financially or technically infeasible.

Section 5. System Facilities, Equipment and Services.

(A) System.  
(1) The Franchisee’s Cable System shall be designed, constructed and operated so as to meet the technical standards under Subpart K of Part 76 of the FCC’s Rules and Regulations as may, from time to time, be amended.  
(2) The Cable System shall be capable of continuous twenty-four (24) hour daily operation without severe material degradation of signal except during extremely inclement weather or immediately following extraordinary storms that adversely affect utility services or damage major system components.

(B) Interconnection.  
(1) The Franchisee shall cooperate on a reasonable basis with any interconnection corporation, regional interconnection authority or City, State or federal regulatory agency which may be hereafter established for the purpose of regulating, financing, or otherwise providing for the interconnection of cable systems beyond the boundaries of the City.  
(2) Interconnection shall only be done for the purposes of sharing PEG programming, provided Franchisee is able to reach agreement with the other operator(s) for the interconnection on reasonable terms and conditions, and the City or interconnection authority is able to obtain any necessary consent from the adjacent cable system’s local franchising authority.  
(3) No interconnection shall take place without prior written approval of the Council. The Council may grant reasonable extensions of time to interconnect or rescind its request to interconnect upon its own initiative or upon petition by the Franchisee. The Council shall rescind the request if it finds that the Franchisee has negotiated in good faith and the cost of interconnection would cause an unreasonable increase in Subscriber rates.
(4) With respect to overbuilders in the City, including Persons that receive State video service authorization, all costs associated with interconnection shall be borne by the overbuilder.

Section 6. Channels and Facilities for Public, Educational and Governmental Use.

(A) **Access Channels.**

(1) The Franchisee shall provide **one (1) channel** to the City on its Cable System upon **ninety (90) days** written notice from the City for non-commercial governmental and/or educational access use upon the City’s written request.

(2) The Franchisee may provide such channel to the City on any service tier and may utilize any transmission technology or spectrum to provide the channel.

(B) **Management of the Channel.**

(1) The access channel shall be used only for non-commercial purposes, however underwriting or sponsorship recognition may be carried on the channel for the purposes of funding governmental and educational access related activities.

(2) The City is solely responsible for the content it provides over its designated access channel. The Franchisee shall not exercise any editorial control over any programming of this access channel.

(3) The Franchisee shall not be subject to any civil or criminal liability for any program carried on the access channel.

(C) **Governmental Programming Services.**

(1) Starting within **ninety (90) days** of written request by the City, Franchisee shall provide the City with grants of **Twenty-Five Cents (25¢) per Subscriber per month** within the Franchise Area payable in each January, to be used in the City’s discretion but solely for governmental and educational access equipment, facilities and other lawful access purposes.

(2) Franchisee shall also provide the City, upon its written request, with an additional one-time PEG grant of **Six Thousand Dollars ($6,000.00)**, payable **ninety (90) days** after the written request is made by the City to the Franchisee. Such grant shall be used solely for governmental and/or educational access equipment, facilities, and other lawful governmental and educational access purposes. Franchisee’s obligation to make such grant shall be contingent upon the City committing to match such grant with equal funds to be used for the same purposes and to hold such funds in a special account for such purposes.

(D) **Service to Government/Educational Facilities.**

(1) The Franchisee shall maintain, without charge, **one (1) outlet** of Basic Service to each accredited public, private and parochial elementary and secondary (K-12) school in the City that is within **two hundred (200) feet** of the Franchisee’s existing Cable System. In addition, the Franchisee shall furnish to the city, without charge, **one (1) outlet** of Basic Service to each police and fire station, public library, and City Hall that are within **two hundred (200) feet** of the Franchisee’s existing Cable System. Such free outlets and Cable Service may only be used for lawful purposes.

(2) At such time as the City informs the Franchisee of any new governmental or educational institution (K-12) in existence as described in Section 6(d)(1), the Franchisee shall use best efforts to provide such institution, without charge, **one**
(1) outlet of Basic within sixty (60) days, provided such institution is within two hundred (200) feet of the Franchisee’s existing Cable System.

(3) For any request for free Cable Service under this subsection that requires said service to be installed underground, the City and/or School shall provide and install for the Franchisee all necessary conduit.

(4) Limitations on Use. The Cable Service provided pursuant to this Section shall not be used for commercial purposes and such outlets shall not be located in areas open to the public. The City shall take reasonable precautions to prevent any use of the Franchisee’s Cable System that results in the inappropriate use thereof or any loss or damage to the Cable System. The City shall hold the Franchisee harmless from any and all liability or claims arising out of the provision and use of Cable Service required by subsection (1) above. The Franchisee shall not be required to provide an outlet to any such building where a standard drop of more than two hundred (200) feet is required, unless the City or building owner/occupant agrees to pay the incremental cost of any necessary extension or installation.

Section 7. Franchise Fee.

(A) Payments.

(1) The Franchisee shall pay to the city a Franchise Fee in an amount equal to five percent (5%) of annual Gross Revenues received from the operation of the Cable System to provide Cable Service in the Franchise Area; provided, however, that the Franchisee shall not be compelled to pay any higher percentage rate for Franchise Fees than any other Person paying a video service provider fee or similar fee under state authorization or otherwise providing similar service in the Franchise Area. The payment of Franchise Fees shall be made on a quarterly basis and shall be due forty-five (45) days after the close of each calendar quarter. Each Franchise Fee payment shall be accompanied by a report prepared by a representative of the Franchisee showing the basis for the computation of the Franchise Fees paid during that period. Any undisputed Franchise Fee payment which remains unpaid in whole or in part, after the date specified herein shall be delinquent. In the event any Franchise Fee payment amount is not made on or before the required date, the Franchisee shall pay interest charges computed from such due date at an annual rate equal the commercial prime interest rate plus one percent (1%) during the period such unpaid amount is owed. Any undisputed overpayments of Franchise Fees made by Franchisee to the City shall be returned or credited upon discovery of such overpayment and shall be payable within forty-five (45) days of the receipt of written notice of Franchisee. Any disputed Franchise Fees over-payment which is not refunded or credited in whole or in part, after the date specified herein shall be delinquent. For any Franchise Fee overpayments owed by the City in accordance with this Section, which are not made on or before the due dates, the City shall pay interest charges computed from such due date at an annual rate equal to the commercial prime interest rate plus one percent (1%) during the period such unpaid amount is owed.

(2) The Parties acknowledge that, at present applicable federal law limits the City of collection of a maximum permissible Franchise Fee of five percent (5%) of
Gross Revenues. In the event that at any time during the duration of this Franchise, the City is authorized to collect a Franchise Fee in an amount in excess of **five percent (5%)** of Gross Revenues, then the City may unilaterally amend this Franchise Agreement to increase the required percentage to be paid by Franchisee to the City up to the amount permitted by the Cable Act, provided that: (a) such amendment is competitively neutral; (b) the City conducts a public hearing on the proposed amendment and provides Franchisee with a **thirty (30) day** notice of such public hearing; (c) the City approves the amendment by ordinance; and (d) the City provides written notice to the Franchisee at least **ninety (90) days** prior to the effective date of such an amendment.

(B) **Accord and Satisfaction.** No acceptance of any payment by the Franchisee shall be construed as a release or as an accord and satisfaction of any claim the City may have for additional sums payable as a franchise fee under this Franchise Agreement.

(C) **Audit.** The City and Franchisee shall comply with the auditing provisions established pursuant to **65 ILCS 5/11-42-11.05**.

**Section 8. Construction Provisions.**

(A) **System Construction Schedule.** A construction schedule that will apply to any upgrade construction of the Cable System shall be provided to the City.

(B) **Construction Procedures.**

(1) Franchisee shall construct, operate and maintain the Cable System in compliance in all material respects with all adopted local, State and national construction and electrical codes which are in effect as of the date of this Franchise.

(2) The Cable System, and all parts thereof, shall be subject to periodic inspection by the City.

(3) No construction, reconstruction or relocation of the System or any part thereof within the Public Rights-of-Way shall be commenced until written permits have been obtained from the proper City officials, which are uniformly and consistently applied by the City as to other public utility companies and other entities operating in the Franchise Area. In any permit so issued, such officials may impose such conditions and regulations, provided such conditions and regulations are uniformly and consistently applied by the City as to other public utility companies and other entities operating in the Franchise Area.

(C) **Construction Standards.**

(1) Franchisee shall be required to comply with all generally acceptable applicable construction standards related to tower construction and maintenance, antenna structures and O.S.H.A.

(2) All construction practices and installation of equipment shall be done in accordance with all applicable sections of the National Electric Safety Code.

(3) All of the Franchisee’s plant and equipment, including but not limited to the antenna site, head-end, and distribution system, towers, house connections, structures, poles, wires, cable, coaxial cable, fixtures and appurtenances shall be installed, located, erected, constructed, reconstructed, replaced, removed, repaired, maintained and operated in accordance with good engineering practices and performed by experienced maintenance and construction personnel.
(4) Any and all Public Rights-of-Way, disturbed or damaged during the construction, repair, replacement, relocation, operation, maintenance, or construction of a System shall be repaired or replaced by Franchisee within a reasonable time specified by the City.

(5) Franchisee shall, by a reasonable time specified by the City, protect, support, temporarily disconnect, relocate, or remove discrete portions of its property when required by the City by reason of traffic conditions; public safety; Public Rights-of-Way construction; Public Rights-of-Way maintenance or repair (including resurfacing or widening); change of Public Rights-of-Way grade; construction, installation or repair of sewers, drains, water pipes, power lines, signal lines, tracks, or, public work or improvement or any government-owned utility; Public Rights-of-Way vacation; or for any other purpose where the convenience of the City would be reasonably served thereby; provided, however, that Franchisee may abandon any property in place if approved by the City in writing, and provided further that Franchisee shall not be required to make permanent changes in its facilities to accommodate the installation of another Cable System or any other entity providing video service, nor should it be required to make temporary changes solely to disrupt its business or otherwise provide an unfair advantage to a competitor. No action hereunder shall be deemed a taking of the property of a Franchisee and a Franchisee shall not be entitled to any compensation therefore. No location of any pole or wire-holding structure of Franchisee shall be a vested interest.

(6) If any action under the preceding paragraph is required to accommodate the construction, operation, or repair of the facilities of another Person that is authorized to use the Public Rights-of-Way, a Franchisee shall, after reasonable advance written notice, take action to effect the necessary changes requested, provided that the expense of such is paid by any such Person benefitting from the relocation. The Franchisee may require such payment in advance. For the purposes of this subsection, “reasonable advance written notice” shall mean no less than ten (10) business days in the event of a temporary relocation and no less than one hundred twenty (120) days for a permanent relocation.

(7) If funds are available to any Person using the Public Rights-of-Way for the purposes of defraying the costs of any of the foregoing, the City shall reimburse the Franchisee in the same manner in which other Persons affected by the requirement are reimbursed. If funds are controlled by another governmental entity, the City shall assist the Franchisee in making the application for such funds on behalf of the Franchisee if the City assisted any Person in making applications for such funds.

(8) In the event of an emergency, or where the Cable System creates or is contributing to an imminent danger to health, safety, or property, the City may remove, relay, or relocate the pertinent parts of that Cable System without prior notice. No charge shall be made by Franchisee against the City for restoration and repair, unless such acts amount to gross negligence by the City.

(9) Franchisee shall, on the request of the City or any Person holding a permit issued by the City, temporarily raise or lower its wires to permit the moving of buildings or oversized vehicles. The expense of such temporary removal or raising or lowering of wires shall be paid by the Person requesting same, and the Franchisee shall have the authority to require such payment in advance, except in the case where the request is made by the City on its own behalf, in which
case no such payment shall be required. The Franchisee shall be given not less than **forty-eight (48) hours’** advance notice to arrange for such temporary wire changes unless the City has declared an emergency.

(10) Franchisee or its designee shall have the authority to trim trees on the Public Rights-of-Way at its own expense as may be necessary to protect its wires and facilities.

(11) Franchisee shall use, with the owner’s permission, existing underground conduits or overhead utility facilities whenever feasible and may not erect poles in Public Rights-of-Way without the express written permission of the City, which permission shall not be unreasonably withheld.

(12) Trunk, feeder and drop cable may be constructed overhead where poles exist and electric, cable television or telephone lines are overhead, but where no overhead line exists, all trunk, feeder and drop cable shall be constructed underground. Whenever and wherever all electric lines and telephone lines are moved from overhead to underground placement, all Cable System cables shall be similarly moved and the cost of movement of its cable shall be solely the obligation of Franchisee.

(13) Prior to construction or rebuild of the Cable System, Franchisee shall first submit to the City for approval a concise description of the Cable System proposed to be erected or installed, including engineering drawings, if required by the City, together with a map and plans indicating the proposed location of all such facilities, and obtain written approval therefore from the City, which approval shall not be unreasonably withheld. If designated by the Franchisee as confidential, such information shall be exempt from inspection and copying and shall not be disclosed by the City to any third party without the written consent of the Franchisee.

(14) Any contractor performing work for Franchisee with respect to construction, upgrade, installation, repair, or maintenance of the cable system shall be properly and currently licensed under the laws of the State of Illinois and under Ordinances of the City, provided that such licenses are uniformly and consistently applied by the City as with other public utility companies and other entities operating in the Franchise Area.

(15) Upon failure of Franchisee to commence, pursue or complete any work required by law or by the provisions of this Agreement to be done in any street, within the time prescribed and to the reasonable satisfaction of the City, the City may, at its option, after **thirty (30) days’** notice to Franchisee, cause such work to be done and the Franchisee shall pay to the City the cost thereof in the itemized amounts reported by the City to Franchisee within **thirty (30) days** after receipt of such itemized report.

(D) **New Development.**

(1) The City shall use best efforts to notify the Franchisee of any new applications for permits submitted by developers or property owners to the City in cases of new construction or property development within the Franchisee’s franchise area.

(2) In cases of new construction or property development where utilities are to be placed underground, on request of Franchisee the developer or property owner shall give Franchisee reasonable notice of the particular date on which open trenching will be available to Franchise for installation of conduit, pedestals and/or vaults, and laterals to be provided at Franchisee’s expense. Franchisee
shall also provide specifications as needed for trenching. Costs of trenching and easements required to bring facilities within the development shall be borne by the developer or property owner; except that if Franchisee fails, to install its conduit, pedestals and/or vaults, and laterals within five (5) working days of the date the trenches are available, as designated in the notice given by the developer or property owner, then should the trenches be closed after the five (5) day period, the cost of new trenching is to be borne by Franchisee.

(E) Commercial Construction. The City recognizes that the Franchisee may require commercial customers to pay all reasonable costs of construction (including time and materials) for the connection of Cable Services.

(F) System Test. Franchisee shall perform all tests in accordance with technical specifications established pursuant to § 76.609, Subpart K of the FCC Rules and Regulations.

(G) System Maintenance. Franchisee shall schedule maintenance so that activities likely to result in an interruption of service are performed during periods of minimum subscriber use of the Cable System.

(H) Emergency Alert System. Franchisee shall comply with 47 U.S.C. § 544 (g) and all regulations issued pursuant thereto.

Franchisee shall comply with the customer service and privacy protection provisions pursuant to 220 ILCS 5/22-501.

Section 10. Guarantees and Remedies.

(A) Performance Bond. Except as expressly provided herein, the Franchisee shall not be required to obtain or maintain bonds or other surety as a condition of being awarded the Franchise or continuing its existence. The City acknowledges that the legal, financial, and technical qualifications of the Franchisee are sufficient for compliance with the terms of the Franchise and the enforcement thereof. The Franchisee and the City recognize that the costs associated with bonds and other surety may ultimately be borne by the Subscribers in the form of increased rates for Cable Services. In order to minimize such costs, the City agrees to require bonds and other surety only in such amounts and during such times as there is a reasonably demonstrated need therefore. The City agrees that in no event, however, shall it require a bond or other related surety in an aggregate amount greater than Twenty-Five Thousand Dollars ($25,000.00), conditioned upon the substantial performance of the material terms, covenants, and conditions of the Franchise. Initially, no bond or other surety will be required. In the event that a bond or other surety is required in the future, the City agrees to give the Franchisee at least sixty (60) days prior written notice thereof stating the exact reason for the requirement. Such reason must demonstrate a change in the Franchisee’s legal, financial, or technical qualifications which would materially prohibit or impair its ability to comply with the terms of the Franchise or afford compliance within.
Remedies.

1. If the City believes that the Franchisee has not complied with the terms of the Franchise, the City shall first informally discuss the matter with Franchisee. If these discussions do not lead to resolution of the problem, the City shall notify the Franchisee in writing of the exact nature of the alleged noncompliance (the “Violation Notice”).

2. The Franchisee shall have **sixty (60) days** from receipt of the Violation Notice to (i) respond to the City, contesting the assertion of noncompliance, or (ii) to cure such default, or (iii) if, by the nature of default, such default cannot be cured within the **sixty (60) day** period, initiate reasonable steps to remedy such default and notify the City of the steps being taken and the projected date that they will be completed.

3. If the Franchisee fails to respond to the Violation Notice received from the City, or if the default is not remedied within the cure period set forth above, the City shall schedule a public hearing if it intends to continue its investigation into the default. The City shall provide the Franchisee at least **twenty (20) days** prior written notice of such hearing, which specifies the time, place and purpose of such hearing, notice of which shall be published by the Clerk of the City in a newspaper of general circulation within the City in accordance with Section 13(b) hereof. The Franchisee shall have the right to present evidence and to question witnesses. The City shall determine if the Franchisee has committed a violation and shall make written findings of fact relative to its determination. If a violation is found, the Franchisee may petition for reconsideration before any competent tribunal having jurisdiction over such matters.

4. Subject to applicable federal and State law, in the event the City, after the hearing set forth in Section 10(b)(3), determines that the Franchisee is in default of any provision of the Franchise, the City may:
    a. Seek specific performance of any provision, which reasonably lends itself to such remedy, as an alternative to damages; or
    b. Commence an action at law for monetary damages or seek other equitable relief; or
    c. In the case of a substantial default of a material provision of the Franchise, seek to revoke the Franchise itself in accordance with Section 10(b)(5).

5. Prior to revocation or termination of the Franchise, the City shall give written notice to the Franchisee of its intent to revoke the Franchise on the basis of a pattern of noncompliance by the Franchisee, including one or more instances of substantial noncompliance with a material provision of the Franchise. The notice shall set force the exact nature of the noncompliance. The Franchisee shall have **sixty (60) days** from such notice to either object in writing and to state its reasons for such objection and provide any explanation or to cure the alleged noncompliance. If the City has not received a satisfactory response from Franchisee, it may then seek to revoke the Franchise at a public hearing. The Franchisee shall be given at least **twenty (20) days** prior written notice of such public hearing, specifying the time and place of such hearing and stating its intent to revoke the Franchise.
    a. At the hearing, the City shall give the Franchisee an opportunity to state its position on the matter, present evidence and question witnesses, after which it shall determine whether or not the Franchise shall be revoked.
The public hearing shall be on the record and a written transcript shall be made available to the Franchisee within **ten (10) business days**. The decision of the City shall be made in writing and shall be delivered to the Franchisee. The Franchisee may appeal such determination to an appropriate court, which shall have the power to review the decision of the City **de novo**. The Franchisee may continue to operate the Cable System until all legal appeals procedures have been exhausted.

(b) Notwithstanding the above provisions, the Franchisee does not waive any of its rights under federal law or regulation.

(c) Upon revocation of the Franchise, Franchisee may remove the Cable System from the Public Right-of-Way of the City, or abandon the Cable System in place.

### Section 11. Rights of Individuals Protected.

(A) **Discriminatory Practices Prohibited.**

(1) Franchisee shall not deny service, deny access, or otherwise discriminate against Subscribers, users, programmers, or residents or businesses in the City on the basis of race, color, religion, national origin, sex, or age.

(2) Franchisee shall not unreasonably discriminate among similarly situated Persons or take any retaliatory action against a Person because of that Person’s exercise of any right it may have under federal, state, or local law, nor may Franchisee require a Person to waive such rights as a condition of providing service.

(3) Franchisee shall not deny access to Cable Service or levy different rates and charges on any group of potential residential cable Subscribers because of the income of the residents of the local area in which such group resides.

(B) **Equal Employment Opportunity.** Franchisee shall not refuse to employ, discharge from employment, or discriminate against any Person in compensation or in terms, conditions, or privileges of employment because of race, color, religion, national origin, sex, or age. A Franchisee shall comply with all federal, state, and local laws and regulations governing equal employment opportunities, as the same may be from time to time amended, including but not limited to 47 U.S.C. § 554.

(C) **Privacy.** The Franchisee shall fully comply with the privacy rights of the Subscriber as contained in 47 U.S.C. § 551.

### Section 12. Insurance, Indemnification.

(A) **Insurance Required.** Franchisee shall maintain throughout the entire length of the Franchise period, at least the following liability insurance coverage in the minimum amounts as follows:

(1) Workers' Compensation – Statutory Limits

(D) **Additional Insureds; Prior Notice of Policy Cancellation.** All general insurance policies shall name the City, its officers, Councils, Council members, commissions, commissioners, agents, and employees as additional insured. Franchisee shall not cancel any required insurance policy without submission of proof that the Franchisee has obtained alternative insurance reasonably satisfactory to the City that complies with this Franchise Agreement.

(E) **Indemnification.** The Franchisee shall, by acceptance of the Franchise granted herein, defend the City, its officers, Councils, commissions, agents, and employees for all claims for injury to any Person or property caused by the negligence of the Franchisee in the construction or operation of the Cable System and in the event of a determination of liability shall indemnify and hold the City, its officers, Councils, commissions, agents, and employees harmless from any and all liabilities, claims, demands, or judgments growing out of an injury to any Person or property as a result of the negligence of Franchisee arising out of construction, repair, extension, maintenance, operation or removal of its wires, poles or other equipment of any kind or character used in connection with the operation of the Cable System, provided the City shall give the Franchisee written notice of its obligation to indemnify the City within **ten (10) days** of receipt of a claim or action pursuant to this section. In the event any such claim arises, the City shall tender the defense thereof to the Franchisee and the Franchisee shall have the right to defend, settle or compromise any claims arising hereunder and the City shall cooperate fully herein. If the City determined in good faith that its interests cannot be represented by the Franchisee, the Franchisee shall be excused from any obligations to represent the City. Notwithstanding the foregoing, the Franchisee shall not be obligated to indemnify the City for any damages, liability or claims resulting from the willful misconduct of negligence of the City or for the City’s use of the Cable System, including any PEG channels.

(A) **Waiver of Federal or State Rights.** In entering into this agreement, Franchisee and the city do not waive, and hereby expressly reserve any and all rights that they have under applicable Federal and State Laws.

   (B) To serve as an implementing tool of comprehensive planning;
   (C) To fix reasonable standards to which buildings or structures shall conform;
   (D) To encourage the development and arrangement of land uses and structures that will yield the greatest social and economic benefits of the City of Fairview Heights.
   (E) To provide adequate light, air, privacy and safe, convenient access to property;
   (F) To divide the City into zoning districts restricting and regulating the location, erection, construction, reconstruction, alteration, and use of buildings, structures and land for residential, business, manufacturing and other specified land uses;
   (G) To provide for the location, width, manner of grading and improvement, access points and design of existing and future streets;

and Development for review. The Department shall evaluate the request for consistency in purpose and content with the nature of the proposal as originally advertised for public hearing.

Said plan shall be retained on file by the Department of Land Use and Development.

(c) If the Department of Land Use and Development determines that the proposed amendment to the site development plan is major in nature and is not in conflict with the original proposal as advertised and the approved preliminary development plan, and meets all conditions of the Planned Business District ordinance, said plan shall be reviewed by the Planning Commission. The Planning Commission shall approve or deny the modification and state finding of fact to support action. Commission decision is final and the requested amendment shall be deemed approved if there is no objection raised by the City Council by the conclusion of its next regularly scheduled meeting. An objection by Council to the amendment shall require a majority vote.

(d) Upon approval of a motion by a majority of the City Council, the determination of the need for a new public hearing may be brought before the City Council for review. The City Council, by an affirmative vote of a majority of the members of the City Council, may overrule the decision of the Planning Commission, at its next regularly scheduled meeting.
(e) If the Department of Land Use and Development determines that the proposed amendment to the site development plan is not consistent in purpose and content with the nature of the proposal as originally advertised for public hearing, or with the preliminary development plan approved by the City Council, the Department shall so report to the applicant and the Planning Commission. The Planning Commission may, upon request of applicant, review the proposed site development plan amendment and make a final determination. Said plan shall be retained on file by the Department of Land Use and Development.

(4) Appeal to Commission of a decision by the Department in reviewing development plans. The petitioner/developer may appeal a decision by the Department of Land Use and Development in cases where the Department of Land Use and Development is authorized to review development plans, to the Planning Commission. The petitioner shall have a fifteen (15) day period in which to file a written appeal and plan with the Commission. The written appeal, stating the reasons for the appeal, shall be submitted to the Department. The Commission will make the final determination of the matter.

[Supplement No. 88; 02-01-19]
14-2-16  "PD" PLANNED DEVELOPMENT DISTRICT. A "Planned Development" (PD) District is a comprehensively planned development under single ownership or control, which may include one type of use or a combination of uses and in which certain land is reserved for common open space.

14-2-16.1  DISTINGUISHED FROM DENSITY TRANSFER SUBDIVISION. Under this Code, a Planned Development can be distinguished from a Density Transfer Subdivision in two essential respects:
(A)  Mixed Uses. As reiterated below, a Planned Development may include commercial uses as well as residential uses, whereas a Density Transfer Subdivision (depending upon which district in which it is located) shall include only certain types of dwellings and associated non-commercial uses.
(B)  Increased Density. As set forth in Subsection 14-2-16.8, overall average density in a Planned Development may be increased above the usual district limit; in Density Transfer Subdivision, overall average density shall not exceed the district limit.

14-2-16.2  PURPOSE. This Code allows for the development of “PD’s” in various districts of the City in order to assist in achieving the purposes enumerated in Section 14-1-2 and the following objectives:
(A)  To permit development of a wide variety of interrelated housing types and other structures and uses in a comprehensively planned project providing a high level of urban amenities;
(B)  To insure the provision of usable common open space, and to spur construction of recreational facilities in new developments;
(C)  To encourage innovative site layouts and coordinated architectural treatment of different housing types and other structures;
(D)  To preserve the natural topography, existing trees and other vegetation, and scenic features on development sites; and
(E)  To facilitate the economical installation of adequate streets, pedestrian and cyclist ways, sewers, and other public utilities.

14-2-16.3  DISTRICTS WHERE PERMITTED. As set forth in this section, Planned Developments shall be built in conformity with the City's comprehensive plan and with all provisions of this Code that are applicable to conventional developments.

14-2-16.4  COMPLIANCE WITH CODE GENERALLY REQUIRED. Except as specifically provided otherwise, Planned Developments shall be built in conformity with the City's comprehensive plan and with all provisions of this Code that are applicable to conventional developments.
14-2-16.5 SPECIAL REQUIREMENTS. No proposed Planned Development shall be approved unless it complies with the special requirements indicated below:

(A) Minimum Area Of Parcel: Any tract to be developed as a PD shall have an area of not less than five (5) acres.

(B) Minimum Common Open Space: No less than twenty percent (20%) of the area of any PD shall be designated and maintained as usable common open space in accordance with any applicable provisions of the Illinois "Condominium Property Act: (Ill. Comp. Stats., Ch. 765, Secs. 605/1, etc. seq.)" as now or hereafter amended. Common open space means land within the PD project which is held in common by the PD residents and which is devoid of structures other than recreational facilities and uses accessory thereto, such as parking areas. "Usable" refers to the requirement that the minimum common open space shall be in plots of not less than eight thousand (8,000) square feet which are topographically and otherwise suited for recreational pursuits.

(C) Maximum Commercial Area: The City Council shall not approve any proposed PD wherein commercial uses would occupy in excess of fifteen percent (15%) of the total area of said PD.

(D) Single Ownership or Control: Any person having an interest in property to be included in a Planned Development may file an application for PD approval. However, no final development plan shall be approved unless the applicant either has acquired legal title to all land in the proposed PD or has executed a binding agreement with all the property owners granting him control over development of the entire PD.

14-2-16.6 ACCEPTABLE DEVIATIONS FROM CODE REQUIREMENTS. The Planned Development procedure is intended to allow both the developer and the City considerable flexibility in formulating major development proposals. Therefore, in PD's, certain deviations from usual Code requirements, as indicated in the subsections below, may be approved without a formal variance proceeding. Other proposed deviations shall require a Code and/or subdivision variance or, conceivably, a Code amendment. (See Article IX.)

14-2-16.7 ALLOWABLE USES. Notwithstanding the regulations for the various zoning districts as set forth in Article II in any Planned Development, the City Council may approve any residential, institutional, commercial, or other non-industrial use, or any combination of such uses, provided the limitation on commercial area (See Subsection 14-2-13) is observed. In so doing, the Council may attach any conditions necessary to protect the general welfare of the future PD residents, adjacent property owners, and/or the City as a whole.

14-2-16.8 INCREASED DENSITY. As an added incentive to the developer, but not as a matter of right, the City Council may approve any proposed "PD"
wherein the overall average density (average number of dwelling units per acre of the entire development) will not exceed the usual zoning district limit by more than fifteen percent (15%).

14-2-16.9 LOT AND BUILDING REQUIREMENTS. In Planned Development, the City Council may approve any reasonable deviation from the lot and building requirements of the particular district provided that the different uses and housing types within the “PD” are appropriately interrelated, and provided further that adjacent property owners are adequately protected from any potential adverse impacts of the “PD”. The term “lot and building requirements” includes minimum individual lot area, width and depth; minimum setbacks; and maximum structure height.

14-2-16.10 LOCATION OF OFF-STREET PARKING SPACES. In Planned Developments, the same number of off-street parking spaces as required by Section 14-6-13 shall be provided, but the Code requirements concerning location of said spaces (See Article VI) may be disregarded to the extent approved by the City Council.

14-2-16.11 SUMMARY OF “PD” PROCEDURES. Every applicant for “PD” approval shall comply with the procedural requirements of this Article. In summary form, the required procedures are in order, as follows:

(A) Pre-application conference with the Administrative Official;
(B) Filing of preliminary development plan with the Administrative Official;
(C) Public hearing before the Plan Commission;
(D) Recommendation by the Plan Commission to the City Council regarding acceptance/rejection of the preliminary development plan and issuance/denial of a special-use permit;

(G) Filing of final development plan with the Administrator;
(H) Evaluation of final development plan by the Plan Commission;
(I) Recommendation by the Plan Commission to the City Council regarding approval/rejection of the final development plan;

(C) Whether the physical design of the proposed “PD” makes adequate provision for public services, provides adequate control over vehicular traffic, provides for and protects designated common open space, and furthers urban amenities;

(See Section 14-10-6)

(B) All other changes in time schedule and in uses, any rearrangement of private lots or building sites, any changes in the provision of common open space, and all other changes in the approved final development plan shall be made only by the City Council upon recommendation of the Plan Commission following a public hearing. A self-imposed hardship shall not be a valid reason for change.

(C) Any changes approved shall be recorded with the St. Clair County Recorder of Deeds as amendments to the recorded copy of the final development plan before they have any effect.

14-2-16.22  **FAILURE TO BEGIN DEVELOPMENT.** If no substantial construction has begun or no use established in a “PD” within the time stated in the final development and construction schedule, the final development plan shall lapse upon written notice to the applicant from the City Council, and shall be of no further effect. depressing effect on property values. These regulations are intended to minimize the existing and/or potential problems created by nonconforming uses. (Ord. No. 1091-02; 04-16-02)

In the event the damage or destruction is less than fifty percent (50%) of its value, based upon the prevailing costs, the building may then be restored to its original condition and the occupancy or use of such building may be continued which existed at the time of such partial destruction. The terms of this Section shall not apply to the following specific and limited properties:

ARTICLE IV

SUPPLEMENTARY LAND USE AND AREA-BULK REGULATIONS

14-4-1 PURPOSE. The purpose of this Article is to define regulations and standards that apply to the area, bulk and use of specific land uses. These regulations apply in all instances of development, in all zoning districts, subdivisions, and mobile home parks regulated by this Code.

14-4-2 CHURCHES AND PLACES OF FORMAL WORSHIP, GOVERNMENTAL BUILDINGS, LIBRARIES, HOSPITALS, AND SIMILAR BUILDINGS. Each principal building shall be located at least twenty-five (25) feet from all property lines or shall meet the zoning district yard and setback requirements, whichever is greater.

14-4-3 DRIVE-IN THEATERS. In any district where drive-in theaters are permitted, the establishment of such theaters shall be subject to the following requirements:

(A) Projection screens and parking areas shall not be closer than one hundred fifty (150) feet from any street center line and not closer than two hundred (200) feet from any Residential District boundary.

(B) The projection surface of motion picture screens shall not be visible from any major traffic street.

(C) Loudbspeakers shall be limited to the individual type which are designed to be heard by the occupants of one car only.

(D) Entrances and exists shall connect only to arterial or collector streets and shall be designed so as not to unduly interfere with or unnecessarily impede traffic flow.

(E) Fences and/or appropriate plant screening, as approved by the Administrative Official, shall enclose the drive-in theater.

(F) All aisles and parking areas shall utilize, at a minimum, a dust palliative of the A-2 surface variety, or its equivalent.

14-4-4 BUFFER STRIPS, FENCES, WALLS AND HEDGES. Buffer strips, fences, walls or hedges used for any purpose shall, in all districts, conform to the following:

(A) Buffer Strips. Whenever a commercial or industrial district abuts a residential district, or is across a street, alley or similar obstacle from a residential district, a buffer strip of landscaping or similar treatment shall be required. If buffer strip is live landscaping, a temporary artificial screening shall be provided until such time as landscape screening reaches maturity.
(B) For the purpose of minimizing traffic hazards at street intersections by improving visibility for converging vehicles, obstructions higher than two (2) feet above the adjacent top of the curb or street elevation, whichever is higher, shall not be permitted to be planted, placed, maintained, or erected on any corner lot within the triangular portion of land designated as “restricted area” in Figure 1.

(C) No barbed wire or other such sharp pointed fence below six (6) feet in height and no electrically charged fence shall be erected or maintained except in conservation districts.

(D) No permanent fence, retaining wall, or obstruction shall be constructed or erected within any public street or alley right-of-way.

(E) Fences erected on public easement or across ditches shall be so constructed that drainage shall not be obstructed, and in the event of necessity for removal of such fence for maintenance or other purposes, removal and/or replacement of such fence or other improvement shall be the responsibility of the owner of the fence or retaining wall.

(F) Fences and walls may be located within the front, rear and side yard setback areas. Fences and walls shall not exceed eight (8) feet in height above grade within the side and rear yards or four (4) feet in height above grade in a required front yard on residentially zoned property.

Where lots have reverse frontage on a public street or alley, fences and walls may have a height of eight (8) feet or less along the rear property line.

Corner lots which have rear yards back-to-back may have fences and walls of eight (8) feet or less within the side yard abutting a street. When a side entry garage exists or rear yard abuts side yard, then fences or walls may not exceed a height of four (4) feet in height within the required side yard abutting a street.

A fence required for safety and protection from hazard or nuisance may be exempt from the height limitations of this subsection. Approval to exceed maximum height limitations requires Area/Bulk Variance as determined by the Zoning Board of Appeals. (Ord. No. 883-97; 04-01-97)

14-4-5 GARAGES: REPAIR. In repair garages, all repair work, servicing and storage of parts and equipment concerning vehicles, boats, auto body, radiator and appliance repair and similar use shall be done completely within an enclosed building or shall be enclosed by a solid fence at least eight (8) feet in height or a planting screen of at least ten (10) feet in depth and eight (8) feet in height, or as approved by the Administrative Official.

14-4-6 GASOLINE SERVICE STATIONS. In districts where gasoline service stations are permitted, the establishment of such uses shall be subject to the following requirements:
(A) All gasoline pumps, lubrication or similar devices and other service facilities shall be located at least twenty-five (25) feet from any street right-of-way line or side or rear lot line.

(B) No access drive shall be within two hundred (200) feet of a fire station, school, public library, church, park or playground.

(C) All devices for dispensing or selling milk, ice, cold drinks, and the like shall be located within the principal building.

(D) Whenever a gasoline service station has been abandoned, all underground storage tanks shall either be removed or filled with some acceptable material approved by the Administrative Official. A gasoline service station shall be considered abandoned when the owner, tenant, or lessor has not sought to continue the use for a period exceeding twelve (12) months.

(E) All waste and trash receptacles shall be in a screened enclosed area.

14-4-7 HOME OCCUPATIONS. Home occupations shall be considered special uses and the establishment and continuance of a home occupation shall be subject to the following requirements:

(A) Such use shall be conducted entirely within a dwelling and carried on by not more than two (2) individuals, one of whom is the principal occupant.

(B) Such use shall be clearly incidental and secondary to the use of the dwelling for dwelling purposes and shall not change the residential character thereof.

(C) The total area used for such purposes shall not exceed the equivalent of one-fourth (1/4) of the floor area, in square feet, of the main floor of such dwelling unit; but, in no event, may the home occupation be allowed or conducted in more than three hundred (300) square feet.

(D) There shall be no advertising, display or other indications of a home occupation on the premises, except as provided in Section 14-7-6.

(E) There shall not be conducted on the premises the business of selling merchandise, supplies or products, provided that incidental retail sales may be made in connection with a permitted home occupation.

(F) There shall be no exterior storage on the premises of material used in the home occupation, nor of any highly explosive or combustible material.

(G) There shall be no offensive noise, vibration, smoke, dust, odors, heat or glare noticeable at or beyond the property line.

(H) A home occupation, including studios or rooms for instruction, shall provide an additional off-street parking area adequate to accommodate needs created by the home occupation of not less than two (2) parking spaces, plus the parking spaces required for the dwelling unit. Such parking shall be provided on the same lot as the home occupation.
(I) A home occupation shall not include the following: clinic, nursing home, barber shop, tourist home, antique shop, animal hospital, restaurant, beauty shop, veterinarian’s office or machine shop.

14-4-8 HOSPITALS AND SANITARIUMS. In any district where hospitals and sanitariums are permitted, the following requirements shall be met:

(A) The minimum site for any hospital or sanitarium shall be five (5) acres, provided that for a hospital or sanitarium containing more than fifty (50) beds, the minimum site shall be the greater of: five (5) acres, or the number of acres determined by the following formula:

\[
\text{Site Size in Acres} = \frac{\text{(Number of Beds) x (\% of Total Floor Area) \times (\text{at ground level})}}{500}
\]

(B) All principal buildings shall be located at least twenty-five (25) feet from all lot lines.

(C) The site shall have a minimum length and width dimension of two hundred (200) feet.

14-4-9 JUNK YARDS. In any district where junk yards are permitted, the establishment and/or maintenance of such uses shall be subject to the following requirements:

(A) All storage of parts and equipment and the dismantling of vehicles shall be done within a completely enclosed building or within an area enclosed by a solid fence not less than ten (10) feet in height, or a planting screen twenty (20) feet in depth and expected to attain a height of at least twenty (20) feet.

(B) Any junk yard shall be located not less than five hundred (500) feet from any residential boundary.

14-4-10 LIGHTING CONTROLS. The following standards shall apply to all proposed exterior light fixtures within the City. This Section does not apply to public street lighting.

(A) The light from any lighting fixture shall be shaded, shielded or directed to prevent direct light from being cast upon any adjacent property and public right-of-way and to prevent glare and other objectionable problems to surrounding areas.

(B) No light fixture shall have any blinking, flashing or fluttering lights or other illuminating device which has a changing light intensity, brightness or color, nor shall any beacon lights be permitted.
(C) Neither the direct, or reflected light from any light fixture shall create a disabling glare causing traffic hazards to motor vehicle operators on public thoroughfares.

(D) Any off-street parking or loading area shall contain a system of lighting to provide an adequate standard of at least one (1) foot-candle of illumination over the area of the parking area to be used. All lighting shall be arranged to deflect, shade and focus lights away from adjacent properties, including public rights-of-way and shall be designed so as not to create more than one (1) foot-candle of illumination at any property boundary abutting a residential zoning district. Lighting on any property shall not have an illumination greater than twenty (20) foot-candles at any point on the property.

EXCEPTIONS for specified outdoor recreational uses.

(1) Because of their unique requirements for nighttime visibility and their limited hours of operation, ball diamonds, playing fields and tennis courts are exempted from the exterior lighting standards of subsection (D) above. These outdoor recreational uses must meet all other requirements of this Section and of this Chapter.

(2) The outdoor recreational uses specified shall not exceed a maximum permitted post height of eighty (80) feet.

(3) The outdoor recreational uses specified above shall be shielded to prevent light and glare spillover to adjacent residential property. The maximum permitted illumination at the interior buffer-yard line shall not exceed two (2) foot-candles.

(E) Additional Regulations. Notwithstanding any other provision of this Section to the contrary, light sources or luminaries shall not be located within buffer-yard areas except on pedestrian walkways.

(F) Measurement.

(1) Metering Equipment. Lighting levels shall be measured in foot-candles with a direct-reading, portable light meter. The meter shall have a color and cosine-corrected sensor with multiple scales and shall read with an accuracy of plus or minus five percent (5%). It shall have been tested, calibrated and certified by an independent commercial photometric laboratory or the manufacturer within one (1) year of the date of its use.

(2) Method of Measurement. The meter sensor shall be mounted not more than six (6) inches above ground level in a horizontal position. Readings shall be taken by qualified personnel only after the cell has been exposed long enough to provide a constant reading. Measurements shall be made after dark with the light sources in question on, then with the same sources off. The difference between the two readings shall be
compared to the maximum permitted illumination. This procedure eliminates the effects of moonlight and other ambient light.

(G) **Exterior Lighting Plan.** At the time any exterior lighting is installed or substantially modified, and whenever a zoning certificate is sought, an exterior lighting plan shall be submitted to the City of Fairview Heights in order to determine whether the requirements of this Section have been met. *(Ord. No. 1003-00; 05-02-00)*

**14-4-11 Mobile Home Sales.** A mobile home may be parked for inspection and sale on any mobile home or camping trailer sales lot, but mobile homes shall not be parked for inspection and sales to the general public within any mobile home park, except as provided in Section 14-5-6.

**14-4-12 Nursery Schools.** In any district where nursery schools are permitted, the following requirements shall be met:

(A) For each child, at least **fifty (50) square feet** of floor space shall be provided in addition to that provided for sleeping purposes.

(B) For each child, at least **one hundred (100) square feet** of outdoor, enclosed (fenced) play area shall be provided.

**14-4-13 Nursing Homes.** In any district where nursing homes are permitted, the following requirements shall be met:

(A) The minimum site for any nursing home shall be **two (2) acres**, provided that for a nursing home containing more than **forty (40) beds**, the minimum site area shall be the greater of: **two (2) acres**, or the **number of acres** determined by the following formula:

\[
\text{Site Size in Acres} = \frac{(\text{Number of Beds}) \times (\% \text{ of Total Floor Area})}{2000}
\]

(B) All principal buildings shall be located at least **twenty-five (25) feet** from all lot lines.

(C) The site shall have a minimum length and width dimension of **two hundred (200) feet**.

(B) The parabolic or dish-type antenna shall be located in the rear yard, except that when the main building is on a corner lot, the parabolic or dish-type antenna cannot be closer to the adjoining side street than the main building is permitted to be located. (#524; 07-06-85)

(C) The parabolic or dish-type antenna shall be placed in the rear yard except that if a usable satellite signal cannot be obtained from the rear yard, the antenna may be located on the side yard of the property, subject to the approval of the Code Administrator and subject to the other requirements of this Section. In the event that a usable satellite signal cannot be obtained from the rear or side yard of the property, such antenna may be placed on the roof of a structure subject to the approval of the Code Administrator and subject to the other requirements of this section.    (1) Maps of the site at a scale of one inch equals two hundred feet (1” = 200’) or a smaller scale if necessary for clarity. If map size would exceed thirty-six (36) inches, the next appropriate map scale may be used.
   (2) Existing topography of the site at ten (10) feet contour intervals, spot elevations in places too flat to be adequately defined by contours, and all natural features such as natural water courses and drainage ways.
   (3) Statement of ownership of the subject property and the abutting properties.
   (4) The present use of the land and of adjoining land uses shall be stated.
(5) A statement from a qualified soils scientist, geologist, or engineer stating the expected severity of ground water and/or surface water pollution that will be generated.

(6) A section of the plan shall be devoted to the reshaping, final grading and expected drainage pattern of the site when completely filled. This section shall include a map showing final contours at intervals of ten (10) feet and spot elevations in places too flat to be adequately defined by contours.

(7) The landfill plan shall designate which sections of the landfill parcel will be filled in and final-graded to accomplish concurrent implementation of the final plan with ongoing landfill operations.

(8) The plan shall provide that the land can be readily used for urban and/or agricultural purposes after the landfill operation has ceased.

(9) A performance bond equal to the amount of the assessed valuation of the property for tax purposes shall be posted with the City to insure reshaping of the topography in conformance with the plan. If the sanitary landfill is to be conducted on only a portion of the total parcel at any one time, the portion to be used may be so designated on the plan and the performance bond posted for the part or parts to be so used.

(B) Additional Requirements. The following additional requirements shall apply:

(1) Final grading shall be implemented concurrently with landfill operations. Those sections final-graded shall be immediately seeded with foliage and/or grasses capable of minimizing erosion and preventing the siltation of streams.

(2) The sanitary landfill site shall be completely fenced with a solid or wire mesh fence not less than six (6) feet in height and, if wire, with a wire mesh small enough to prevent windblown landfill materials from escaping the site.

(3) All topsoil shall be stored and retained on the site and respread during final grading of the site.

(4) No sanitary landfill shall be permitted or shall be operated on any tract lying within one thousand (1,000) linear feet of any zone district in which single-family homes are a permitted use or an existing residential subdivision.

(Ord. No. 1535-11; 08-02-11)

14-4-23 BUFFER STANDARDS; PURPOSE. Requirements are set forth in this Section for the provision of buffers between certain adjacent land uses to ameliorate nuisances between those land uses. The separation of land uses is intended to eliminate or minimize potential nuisances, such as dirt, litter, noise, light and glare, unsightly buildings, signs or parking areas. Buffers provide visual relief to enhance the appearance of the City, thereby improving its image. (Ord. No. 1126-03; 01-07-03)

14-4-23.1 GENERAL STANDARDS.

(A) **Location and Width.** Buffers shall be located on the outer perimeter of a lot or parcel, extending to the lot or parcel boundary line, or between differing land uses on a single parcel, but may not occupy any portion of an existing, dedicated or reserved public or private street or right-of-way.

The buffer shall be designed to eliminate or minimize plantings within drainage, utility or other easements. Such design may necessitate choosing a buffer with more land area and fewer required plantings.

(B) **Landscape Considerations.** Landscaping shall be designed taking into consideration the site’s soil conditions, topography and natural resources. Native vegetation shall be used for landscaping and buffering unless the applicant demonstrates that the use of non-native, drought-resistant plants would best serve the site.

(C) **Solar Access.** If the development on an adjoining property is existing, planned or deed-restricted for solar access, under-story trees may be substituted for canopy trees where canopy trees would reduce said solar access.

(D) **Table of Buffer Requirements.** Requirements for buffers are based on the intensity of the proposed development or use, and the uses which are developed or designated on all adjacent properties. A table of required buffers for each land use district follows. The buffer requirement is found by locating the proposed use in the left-hand column. The proposed use shall be as identified in Table 14-4-23.1(D). Each adjacent land use (or designated land use) is identified across the top. Where the row for the proposed use intersects the column for a specified adjacent use, the letter identifying the required buffer is given.
(1) Landscaping requirements under this Code may be met by providing any one (1) of the buffers shown under a specified type (A, B or C). The minimum amount of landscaping required in each buffer is indicated in the table of illustrative buffers below and is expressed as required plants per one hundred (100) linear feet of buffer length. The numbers in the “multiplier” column are used to adjust the number of plants required when the buffer width is either increased or decreased.

(2) Location of plants and design of landscaping shall be according to sound landscape and horticultural principles. The following example may help clarify the application of a buffer requirement. An office development is proposed on a parcel of land abutting an existing Office use on one side, and Medium Density Residential development on the two (2) remaining sides. By referring to Table 14-4-23.1(D), the buffer requirements are identified as follows: between the proposed Office and the existing Office – no buffer is required; between the proposed Office and the Residential uses – a Type “A” buffer is required. 

Next, refer to figure of illustrative buffers. Any one of the four (4) “A” buffers shown will satisfy the requirements. If the ten (10) foot buffer is chosen, the total number of the required plants per one hundred (100) feet equals one hundred percent (100%), or one (1) multiplied by the number of required plants (3 canopy, 4 understory, etc.). Alternatively, the developer could choose to use a fifteen (15) foot buffer, reducing the required plants to eighty percent (80%), or eight-tenths (0.8) multiplied by the required plant units/one hundred (100) feet.

Alternative Buffer Yards.

(1) In order to promote creativity and flexibility in design to ensure compatibility of land uses, the Planning Commission shall be authorized:

(a) To require the developer to use one of the larger buffer widths within a required buffer, rather than the minimum width where compatibility between the proposed use and adjacent existing use is an issue;

(b) To allow a reduction in a required buffer by type (i.e., may provide a buffer yard “B” instead of a buffer yard “C”) where a berm, masonry wall, fence as illustrated in the figure of acceptable alternative screens, or durable, opaque landscape screen is provided where the substitution will not negatively impact compatibility;
(c) To permit the substitution of a masonry wall in any situation where a fence is not adequate to ensure safety from a known hazard, such as, but not limited to, railroad tracks, arterial roads or industrial plants; to guarantee adequate security; and to provide aesthetic screening from intense abutting development;

(d) To substitute canopy trees for understory trees and vice versa where safety is impeded by strict interpretation of the Code. For example, where an understory tree would obstruct the line of vision of a vehicle, impairing the driver’s ability to maneuver the vehicle safely, a canopy tree could be substituted, if approved by the Director of Land Use and Development;

(e) To preserve trees and other plantings where existing native vegetation fulfills the intent of the Code, or where replacement of the existing vegetation width required plantings would result in less of a buffer.

(Ord. No. 1126-03; 01-07-03)

14-4-23.2 APPROVED SPECIES SPECIFICATIONS.

(A) Approved Species List. All new and replacement buffer plantings shall be native and/or drought-resistant species. The desired species are preferred for their hardiness, resistance to drought, disease and pests, availability and size variance. Those species that will grow best given the natural site conditions shall be selected.

(B) Minimum Standards for Buffer Plantings.

14-4-23.3 USE, OWNERSHIP AND MAINTENANCE REQUIREMENTS.
(A) Use of Buffers. A buffer shall be required between potentially incompatible adjoining land uses. Buffers may be used for some forms of passive recreation and may contain pedestrian or bike trails provided that:

1. No plant material is eliminated;
2. The total width of the buffer is maintained; and
3. All other regulations of the Code are met.

14-4-24 TELECOMMUNICATIONS SERVICES AND FACILITIES. (Ord. No. 1126-03; 01-07-03)

14-4-24.1 PURPOSE.
(A) The purpose of this Section is to establish regulations for antennas and towers. The goals of this Article are:

[Supplement No. 88; 02-01-19]
(1) To protect residential area and land uses by minimizing adverse impacts of towers, antennas and telecommunications facilities;

(2) To encourage the location of telecommunications facilities, towers and antennas in nonresidential areas and to ensure that they are located in areas that minimize adverse impacts;

(3) To enhance the ability to provide telecommunications services to the community quickly, effectively and efficiently;

(4) To promote, encourage and require, as appropriate, the shared use/collection of telecommunications facilities and towers as a primary option, rather than construction of additional single-use structures and to encourage the attachment of antennas to existing structures;

(5) To promote and encourage utilization of technological designs that will either eliminate or reduce the need for erection of new tower structures to support antenna and telecommunications facilities;

(6) To ensure telecommunications facilities, towers and antennas are configured in a way that minimizes adverse visual impacts by careful design, appropriate siting, landscape screening, and innovative camouflaging techniques;

(7) To avoid potential damage to property caused by telecommunications facilities, towers and antennas by insuring such structures are soundly and carefully designed, constructed, modified, maintained and removed when no longer used or are determined to be structurally unsound;

(8) To ensure that telecommunications facilities, towers and antennas are compatible with surrounding land uses; and

(9) To ensure that telecommunications facilities, towers and antennas do not compromise public safety communications.

(B) In furtherance of these goals, the City shall give due consideration to its comprehensive plan, zoning map, existing land uses and environmentally sensitive areas in approving sites for the location of these facilities.

(Ord. No. 1126-03; 01-07-03)

14-4-24.2 DEFINITIONS.

"Alternative Tower Structure" will mean clock towers, bell steeples, light poles and similar alternative design mounting structures that are compatible with the natural setting and surrounding structures, and camouflages or conceals, the
presence of antennas and/or towers. This term also includes any antenna or antenna array attached to the alternative tower structure.

"Antenna" shall mean any exterior transmitting or receiving devices mounted on a tower, building or structure and used in communications that radiate or capture electromagnetic waves, digital signals, analog signals, radio frequencies (excluding radar signals), wireless telecommunications signals or other communication signals. For purposes of this Article, except as to antennas located or proposed to be located in a historic preservation district, the term antenna excludes any antenna under twelve (12) feet in total height.

"Backhaul Network" shall mean the lines that connect a provider’s tower/cell sites to one (1) or more cellular telephone switching offices, and/or long distance providers, or the public switched telephone network.

"FAA" shall mean Federal Aviation Administration.

"FCC" shall mean Federal Communications Commission.

"Guy Tower" shall mean a tower that is supported in whole or in part by guy wires and ground anchors.

(Ord. No. 1126-03; 01-07-03)

14-4-24.3 APPLICABILITY.  
(A) New Towers and Antennas. All new towers or antennas in the City shall be subject to these regulations, except pre-existing towers and antennas.  
(B) Pre-Existing Towers or Antennas. Pre-existing towers and pre-existing antennas in place prior to (date of adoption), shall not be required to meet the requirements of this Article, other than the requirements of Sections 14-4-23.4 and 14-4-23.9.  
(Ord. No. 1126-03; 01-07-03)

14-4-24.4 GENERAL REQUIREMENTS.  
(A) Principal or Accessory Use. Telecommunications facilities, towers and antennas may be considered either principal or accessory uses. A different existing use of an existing structure on the same zoning lot shall not preclude the installation of an antenna or tower on such lot.  
(B) Lot Size. For purposes of determining whether the installation of telecommunications facilities, towers and antennas complies with this Article, including but not limited to setback requirements, lot coverage requirements, and other such requirements, the dimensions of the entire zoning lot shall control, even though the telecommunications facilities may be located on leased parcels within such lot.  
(C) Inventory of Existing Sites. Every applicant shall provide to the zoning administrator an inventory of its existing telecommunications facilities, towers and antennas, or sites which have been approved for telecommunications facilities, towers and antennas, or for which applications or petitions for approval have already been filed, that are either within the jurisdiction of the City or within one (1) mile of the border thereof, including specific information about the location, height and design of each telecommunications facility, tower and antenna. The Zoning Administrator may share such information with other applicants applying for administrative approvals or special use permits under this Article or other organizations seeking to locate telecommunications facilities within the jurisdiction of the City, provided, however that the Zoning Administrator is not, by sharing such information, in any way representing or warranting that such sites are available or suitable.  
(D) Aesthetics. Antennas and towers shall meet the following requirements:  
(1) Towers shall either maintain a galvanized steel finish or, subject to any applicable standards of the FAA, be painted so as to reduce visual obtrusiveness.  

[Supplement No. 88; 02-01-19]  
203.28
(2) At a tower site, the design of the accessory buildings and related structures shall, to the extent possible, use materials, colors, textures, screening, and landscaping that will blend them into the natural setting and surrounding buildings.

(3) If an antenna is installed on a structure other than a tower, the antenna and supporting electrical and mechanical equipment must be of a neutral color that is identical to, or closely compatible with, the color of the supporting structure so as to make the antenna and related equipment as visually unobtrusive as possible.

(E) **Lighting.** Towers shall not be artificially lighted, unless required by the FAA or other applicable authority. If lighting is required, the lighting alternatives and design chosen must cause the least disturbance to the surrounding views.

(F) **State or Federal Requirements.** All telecommunications facilities must meet or exceed current standards and regulations of the FAA, the FCC, and any other agency of the state of federal government with the authority to regulate telecommunications facilities.

(G) **Building Codes; Safety Standards.** To ensure the structural integrity of telecommunications facilities, towers and antennas, the owner shall ensure that they are maintained in compliance with standards contained in applicable state or local building codes and the applicable standards published in the National Electrical Code, as amended from time to time.

(H) **Measurement.** For purposes of measurement, tower setbacks and separation distances shall be calculated and applied to facilities located in the City irrespective of municipal and county jurisdictional boundaries.

(I) **Not Essential Services.** Telecommunications facilities, towers and antennas shall be regulated and permitted pursuant to this Article and shall not be regulated or permitted as essential services, public utilities, or private utilities.

(J) **Franchises.** Owners and/or operators of telecommunications facilities shall certify that all franchises required by law for the construction and/or operation of telecommunications services with the City have been obtained and shall file a copy of all required franchises with the Administrative Official.

(K) **Signs.** No signs shall be allowed on an antenna or tower, except as otherwise required by this Article.

(L) **Affidavit for Collocation.** This Article also requires the applicant to submit an affidavit stating that space on the proposed tower will be made available to future users when technically possible.

(Ord. No. 1126-03; 01-07-03)

**14-4-24.5 PERMITTED USES.**

(A) **Generally.** The uses listed in this Section are deemed to be permitted uses and shall not require administrative approval or a special use permit.
(B) **Permitted Uses.** Telecommunications facilities, towers or antennas located on property owned, leased or otherwise controlled by the City are specifically permitted in any zoning district provided a license or lease authorizing such telecommunications facilities, towers or antennas has been approved by the City, except not in any public right-of-way within **five hundred (500) feet** of any residential zoning district.

(Ord. No. 1126-03; 01-07-03)

14-4-24.6 **ADMINISTRATIVELY APPROVED USES.**

(A) **Generally.** The following provisions shall govern the issuance of administrative approval for telecommunications facilities, towers and antennas.

1. The directors of Land Use and Development and Public Works ("the administrative panel") may administratively approve the uses listed in this Section.

2. Each applicant for administrative approval shall apply to the Zoning Administrator providing the information required and a non-refundable fee as set by resolution of the City Council from time to time, to reimburse the City from time to time for the costs of reviewing the application. An application shall not be reviewed nor otherwise acted upon until all required information is completed and delivered to the Administrative Official.

3. The administrative panel shall review the application for administrative approval and shall determine if the proposed use complies with this Article, and specifically with Sections 19-68, and 19-71(b)(4), (5) and (7).

4. The administrative panel shall respond to each such application in writing within **sixty (60) days** after receiving it by either approving or denying the application. Failure to respond to the applicant within such **sixty (60) days**, shall result in the application being deemed to be denied.

5. In connection with any such administrative approval, the administrative panel may administratively waive any zoning district setback or separation requirements in subsection (B)(2) below, subsection 14-4-23.7(B)(4) or separation distances in subsection 14-4-23.7(B)(5)(b), Table 2 only, by up to **fifty percent (50%)**.

6. In connection with any such administrative approval, the administrative panel may, in order to encourage the use of monopoles, administratively allow the reconstruction of an existing tower to monopole construction.

7. If an administrative approval is denied, the applicant shall file an application for a special use permit pursuant to
Section 14-4-23.7 prior to filing any appeal that may be available under the Zoning Code.

(B) List of Administratively Approved Uses. The following uses may be approved by the administrative panel, after conducting an administrative review:

1. Alternative tower structures.
2. Locating antennas on existing structures or towers consistent with the terms of subsections (a) and (b) below.
   (a) Antennas on Existing Structures. Any antenna which is not attached to a tower may be approved by the administrative panel as an accessory use, excluding residentially zoned R-1 through and including R-5 and M-2 properties, provided:
      (i) The antenna does not extend more than fifteen (15) feet above the highest point of the structure;
      (ii) The antenna complies with all applicable FCC and FAA regulations;
      (iii) The antenna complies with all applicable building codes; and
      (iv) The antenna is set back from any existing or planned off-site residentially zoned property, a distance of no less than one hundred (100) feet.

   (b) Antennas on Existing Towers. To encourage the maximum use of existing towers, an antenna, which is attached to an existing tower may be approved provided the height of the tower is not increased. To minimize adverse visual impacts associated with the proliferation and clustering of towers, collocation of antennas by more than one (1) carrier on existing towers shall take precedence over the construction of new towers, provided such collocation is accomplished in a manner consistent with the following:
      (i) Type. A tower, which is modified or reconstructed to accommodate the collocation of an additional antenna shall be of the same tower type as the existing tower, unless the administrative panel allows reconstruction as a monopole.
      (ii) Height.
         a. An existing tower may be modified or rebuilt to a taller height, not to exceed twenty (20) feet over the tower's
existing height, to accommodate the collocation of an additional antenna.

b. The height change referred to in subsection a. above may only occur **one (1) time** per tower.

c. The additional height referred to in subsection a. above shall not require an additional distance separation as set forth in section 19-71. The tower’s pre-modification height shall be used to calculate such distance separations.

(iii) **On-Site Location.**

a. A tower, which is being rebuilt to accommodate the collocation of an additional antenna, may be moved onsite within **thirty (30) feet** of its existing location.

b. A bond in the amount of **Twenty-Five Thousand Dollars ($25,000.00)** shall be required at time of filing of application for relocation under this Section to ensure removal of an existing tower. After the tower is rebuilt to accommodate collocation, only **one (1) tower** may remain on the site, and the existing tower shall be removed in any event no later than **six (6) months** after the newly relocated tower is functioning.

c. A relocated onsite tower shall continue to be measured from the original tower location for purposes of calculating separation distances between towers pursuant to **subsection 14-4-23.7(B)(5)**. The relocation of a tower hereunder shall in no way be deemed to cause a violation of **subsection 14-4-23.7(B)(5)**.

d. The onsite relocation of a tower, which comes within the separation distances to residential units or residentially zoned lands as established in **subsection 14-4-23.7(B)(5)** shall only be permitted when approved by the administrative panel.
(3) **Alternative Technology.** Installing a microcell network through the use of multiple low-powered transmitters/receivers attached to existing wireline systems, such as conventional cable or telephone wires, or similar technology that does not require the use of towers.

(4) **Educational Uses.** Towers or antennas on school property to be used for educational purposes only.

(Ord. No. 1126-03; 01-07-03)

**14-4-24.7 SPECIAL USE PERMITS.**

(A) **Generally.** The following provisions shall govern the issuance of special use permits for telecommunications facilities, and antennas:

1. If the telecommunications facilities, towers and antennas are not a permitted use under section 19-69, or permitted to be approved administratively pursuant to Section 14-4-23.6, then a special use permit shall be required in all zoning districts.

2. Applications for special use permits under this Section shall be subject to the procedures and requirements of the Development Code, except as modified in this Section.

3. In granting a special use permit, the Planning Commission, or City Council, as the case may be, may impose conditions to the extent they conclude such conditions are necessary to minimize any adverse effect of the proposed telecommunications facilities, towers and antennas, including but not limited to extension façade materials and design, on adjoining properties.

4. Any information of an engineering nature that the applicant submits, whether civil, mechanical or electrical, shall be certified by a licensed professional engineer.

(i) Drive test results, which confirm or refute the areas shown on coverage maps used in planning the system used by the telecommunications provider.

(j) A notarized statement by the applicant as to whether construction of the tower will accommodate collocation of additional antennas for future users.

(k) A description of the unsuitability of the use of existing towers, other structures or alternative

[Supplement No. 88; 02-01-19]
technology not requiring the use of towers or structures to provide the services to be provided through the use of the proposed new tower, including information regarding the number of calls dropped and failed hand-offs between existing call sights within two (2) miles of the City.

(q) Color photo simulations showing the proposed site of the telecommunications facility, tower or antenna with a photo-realistic representation of the proposed facility as it would appear viewed from the closest residential property or other adjacent land use.

(2) **Factors Considered in Granting Special Use Permits.**

In addition to any standards for consideration of special use permit applications pursuant to Section 14-10-8 of the Development Code, the Planning Commission, or City Council, as the case may be, shall consider the following factors in determining whether to issue a special use
permit, although they may waive or reduce the burden on the applicant of one (1) or more of these criteria if they conclude that the goals of this Article are better served thereby:

(a) Height of the proposed telecommunications facility, tower or antenna;
(b) Proximity of the telecommunications facility, tower or antenna to residential structures and residential district boundaries;
(c) Nature of uses on adjacent and nearby properties;
(d) Surrounding topography;
(e) Surrounding tree coverage and foliage;
(f) Design of the telecommunications facility, tower or antenna with particular reference to design characteristics that have the effect of reducing or eliminating visual obtrusiveness;
(g) Proposed ingress and egress; and
(h) Availability of suitable existing telecommunications facilities, other structures, or alternative technologies not requiring the use of towers or structures, as discussed in subsection (B)(3) below.

(3) Availability of Suitable Existing Towers, Other Structures, or Alternative Technology. No new tower shall be permitted unless the applicant demonstrates to the reasonable satisfaction of the Planning Commission, or City Council, as the case may be, that no existing tower, structure or alternative technology that does not require the use of towers or structures can accommodate the applicant’s proposed antenna. An applicant shall submit information requested by the Planning Commission, or City Council, as the case may be, related to the availability of suitable existing towers, other structures or alternative technology. Evidence submitted to demonstrate that no existing tower, structure or alternative technology can accommodate the applicant’s proposed antenna may consist of any of the following:

(a) No existing towers or structures are located within the geographic area, which meet applicant’s engineering requirements.

(b) Guys and accessory buildings must satisfy the minimum zoning district setback requirements, including the provision of transitional yards, if required.

(5) **Separation.** The following separation requirements shall apply to all telecommunications facilities, towers and antennas for which a special use permit is required; provided, however, that the Planning Commission, or City Council, as the case may be, may reduce the standard
separation requirements if the goals of this Article would be better served thereby.

(a) **Separation From Off-Site Uses/Designated Areas.**

   (i) Tower separation from off-site uses/designated areas shall be measured from the base of the tower to the lot line of the off-site uses and/or designated areas as specified in Table 1, except as otherwise provided in Table 1.

   (ii) Separation requirements for towers shall comply with the minimum standards established in Table 1.

(b) **Separation Distances Between Towers.**

   (i) Separation distances between towers shall be applicable for and measured between the proposed tower and pre-existing towers. (6) **Security Fencing.** Telecommunications facilities shall be enclosed by security fencing or walls not less than six (6) feet in height and shall also be equipped with an acceptable anti-climbing device or design; provided, however, that the Planning Commission, or City Council, as the case may be, may waive such requirements, as they deem appropriate.

(7) **Landscaping.** The following requirements shall govern the landscaping surrounding telecommunications facilities for which a special use permit is required; provided, however, that the Planning Commission, or City Council, as the case may be, may waive such requirements if the goals of this Article would be better served thereby.

(a) Telecommunications facilities, towers and antennas shall be landscaped with a buffer of plant materials that effectively screens the view of the facilities from property used for residences. The standard buffer shall consist of a landscaped strip at least ten (10) feet wide outside the perimeter of the facility.

(b) In locations where the visual impact of the facility would be minimal, the landscaping requirement may be reduced or waived.

(c) Existing mature tree growth and natural land forms on the site shall be preserved to the maximum extent possible. In some cases, such as towers sited on large, wooded lots, natural growth around the property perimeter may be a sufficient buffer.

No part of an off-street parking area required for any building or use for the purpose of complying with the provisions of this Code shall be included as a part of an off-street parking or loading space similarly required for another building or use.

14-6-2 ACCESSORY USES. No motor vehicle repair work shall be permitted in conjunction with accessory off-street parking lots or areas provided in a Residence District for a commercial or industrial use. The sale of gasoline and motor oil, when permitted in conjunction with accessory off-street parking areas, shall be located with respect to residential properties so as not to create a nuisance.

14-6-3 COMPUTATION. When determination of the number of off-street parking spaces required by this Code results in a requirement of a fractional space, any fraction of one-half (1/2) or less may be disregarded, while a fraction of or in excess of one-half (1/2) shall be counted as one (1) parking space.

14-6-4 DAMAGE OR DESTRUCTION. For any conforming building or use which is in existence on the effective date of this Code, which is damaged or destroyed by fire, explosion or other similar cause, and which is reconstructed, reestablished, or repaired, additional off-street parking or loading facilities need not be provided, except that parking or loading facilities equivalent to any maintained at the time of such damage or destruction shall be restored or continued in operation. However, in no case shall it be necessary to restore or maintain parking or loading facilities in excess of those required by this Code for equivalent new uses or construction.

14-6-5 DESIGN STANDARDS, ACCESS AISLE AND SPACE REQUIREMENTS.

(4) Landscaped islands shall be placed at the ends of parking aisles and within aisles as required by paragraph (3). There shall be a minimum landscape width of **six (6) feet** and a minimum area of **one hundred (100) square feet**, in accord with Diagram C. One (1) deciduous tree is required per island. Double landscaped islands of **two hundred ten (210) square feet** are required at the end of a double row of parking. Two (2) deciduous trees are required per double landscaped island. occupied by the building or use to which the parking facilities are accessory. No such off-site
parking facilities shall be authorized and no building permit or occupancy permit shall be issued
where the plans call for parking facilities other than on the same zoning lot until and unless the
Administrative Official has reviewed the plans and heard the applicant and made findings that
the common ownership or possession of the zoning lot and the site of the parking facilities are
reasonably certain to continue and that the off-site parking facilities will be maintained at all
times during the life of the proposed use or building, providing the off-site parking facilities are
within **one thousand (1,000) feet** of the main entrance with walkways provided. This

ARTICLE VII
SIGN REGULATIONS

14-7-1 PURPOSE. The purpose of this Article is to regulate the size, height, number, location, illumination and construction of signs permitted in the various districts of the City. Conditions within the various zone districts that necessitate the regulation of signs include:

(A) Conflicts between traffic control signs and signals and various private signs resulting in vehicular and pedestrian safety problems.
(B) Signs are sometimes placed in locations or constructed in a manner that creates a danger to the public during periods of high winds or inclement weather.
(C) The uncontrolled use of signs defeats the sign's informational or advertising functions as competitors escalate sign size and expense in an effort to fairly attract attention.
(D) The uncontrolled use and proliferation of signs create visual pollution that destroys the beauty of the City, the attractiveness of commercial areas and the ability of the public to safely and quickly interpret the intended message. (Ord. No. 1074-02; 01-15-02)

14-7-2 GENERAL REQUIREMENTS. The sign standards of this Article shall be regulated by zone districts as shown on the City Zone District Map(s).

(A) New Zone Districts. If this Code is amended to include a zone district not presently included in this Code, no sign shall be permitted unless:

(1) additional sign regulations for the new zone district are included in the amendment.
(2) signs which are classified by this Article as miscellaneous signs may be permitted in any zone district. (Ord. No. 1074-02; 01-15-02)

(B) Illumination. The light from any illuminated sign shall be so shaded, shielded, or directed that the light intensity or brightness will not be objectionable to surrounding areas and the light rays shall not spill over the property lines into a residential zone, except by indirect reflection.

(1) No sign shall have blinking, flashing, or fluttering lights or other illuminating device which has a changing light intensity, brightness or color. Beacon lights are not permitted. This Section is not intended to prevent signs showing time and temperature exclusively.
(2) Neither the direct, nor reflected light from primary light sources shall create a traffic hazard to operators of motor vehicles on public thoroughfares.

[Supplement No. 88; 02-01-19]
(3) No exposed lamps or bulbs which exceed fifteen (15) watts shall be used on the exterior surface of any sign so as to expose the face of the bulbs, light or lamp to any public street or adjacent property.

(C) **Sign Face Calculations.** The sign face is the area of any geometric shape which contains the entire surface area of a sign upon which copy may be placed. In the case of freestanding and projecting signs, the sign face consists of the entire surface area of the sign on which copy could be placed. *(Figure 3)* The supporting structure or bracing of a sign shall not be counted as a part of sign face area unless such structure or bracing is made a part of the sign’s message. Where a sign has **two** (2) display faces touching back-to-back, the area of only **one** (1) face shall be considered the sign face area. Where a sign has more than **one** (1) display face, all areas which can be viewed simultaneously shall be considered a sign face area.

(1) In the case of a sign (other than freestanding or projecting) whose message is fabricated together with the background which borders or frames that message, sign face area shall be the total area of the entire background.

(2) In the case of a sign which identifies the name of the business (other than freestanding or projecting) which is applied to a background which provides no border, the sign face area shall be the smallest geometric shape which can encompass each phrase and/or individually standing word or letter of the sign message. *(Figure 4)*

(D) **Attachment Prohibited.** No sign shall be attached to a tree or utility pole.

(E) **Roof Signs Prohibited.** No roof signs shall be permitted in any zoned district.

Lighting, if used, shall be white.

(B) **Size Of Dwelling Sign.** A sign not exceeding **five (5) square feet** in area shall be permitted per dwelling unit. The sign per dwelling shall indicate only the name of the occupant and may include the address.

(1) **Pylon Signs.**

ARTICLE VIII

DESIGN STANDARDS - SUBDIVISION AND SPECIAL

14-8-1 PURPOSE. The purpose of this Article is to establish minimum standards to: protect life and property, prevent the despoliation of the environment and to regulate the design, construction and quality of materials in land subdivision and where applicable in any development.

The standards presented in this Article are mandatory, unless, through the application of proper procedures, better site design results, improved construction methods and materials are used and/or new technologies become available and are approved. Guides for development are also included within this Article and are recommended for inclusion in development plans.

(A) Subdivision, Land Suitability. Land unsuitable for subdivision development due to drainage, flood hazard area, hillside area, rock formation or any other conditions constituting a danger to health, life or property shall not be approved for subdivision development unless the subdivider presents evidence or data satisfactory to the City, establishing that the methods proposed to meet any such conditions are adequate to avoid any danger to health, life or property.

(B) Subdivision Official Map Conformity. In the event that an area to be subdivided includes lands proposed to be used for parks or schools as shown on an Official Map of the City of Fairview Heights, such subdivision shall be subject to such ordinances as adopted by the Corporate Authority.

14-8-2 JURISDICTION OUTSIDE CORPORATE BOUNDARIES. The provisions of the Code shall also apply to all developments, construction and improvements, whether residential, commercial, industrial or otherwise in nature, whether or not a subdivision is created under this Code or by Illinois law or under the ordinances of any other governmental body or agency having jurisdiction or control, it being the intent to apply the provisions of this Code to all types of development, both within the City Limits of the City and to all areas lying within one and one-half (1 1/2) miles of the corporate limits of the City. The procedures for those subdivisions located outside the corporate authority boundaries, but within one and one-half (1 1/2) miles of the City Limits shall be as follows:

(A) The subdivider shall submit the proposed preliminary subdivision plat to the appropriate authorities of St. Clair County.

(B) The subdivider shall also submit four (4) copies of the proposed preliminary subdivision plat to the Administrative Official of the City. Said preliminary subdivision plat shall comply with Section 14-9-5 of this Code. The subdivider shall not be required to comply with Section 14-11-5(L), (M), and (N).

(C) The proposed preliminary subdivision plat shall follow the procedure for preliminary subdivisions as contained in the appropriate sections of this Code.

[Supplement No. 88; 02-01-19]
(D) The procedure for review and approval of the proposed final subdivision plat shall be the same as those contained in the Development Code.

(E) After the Corporate Authority has approved the final plat, including the appropriate improvement plans and specifications, the subdivider shall not be required to follow the procedure in Section 14-10-6, and shall proceed to recording the final subdivision plat as provided for in the Development Code.

14-8-3 **ALLEYS.** Alleys provided shall be at least twenty (20) feet wide and shall be constructed according to City Standards. Alley intersections and sharp changes in alignment shall be avoided, but where necessary, corners shall be designated to permit safe vehicular movement. A dead-end alley shall have an adequate turnaround facility at its termination. Alleys shall be prohibited in single-family districts. Alleys may be required in multiple-family districts and commercial or industrial districts unless other definite and assured provision(s) is made for service access, such as off-street loading, unloading and parking consistent and adequate for the use proposed.

14-8-4 **BLOCKS.** The intent of this Section is to provide for the review of any creation of a City block to insure adequate transportation circulation, pedestrian movement, to provide access points for emergency services and to reduce unnecessary expenditures for initial construction and maintenance of streets.

(A) **Shapes Of Blocks.** The length, width and shapes of blocks shall be determined with due regard to building sites, land use, zoning requirements, transportation needs, access, safety and convenience, however, no block should be longer than one thousand four hundred (1,400) feet or less than five hundred (500) feet in length. No block width shall be less than the minimum required to meet the applicable provisions of this Code governing lot depth.

(B) **Crosswalks.** All blocks, whenever it is deemed essential to provide access to schools, playgrounds, shopping centers, and other community facilities, shall have a crosswalk with a right-of-way of at least ten (10) feet in width near the center of the block or where deemed necessary.

(C) **Adjoining Arterial Streets.** Where a subdivision adjoins an arterial or collector street, all ingress or egress points shall be designed to minimize traffic conflict and to maximize traffic safety.

14-8-5 **EASEMENTS, UTILITY AND DRAINAGE.** Easements of not less than seven and one-half (7 ½) feet in width shall be provided at all rear lot lines, and along side lot lines where necessary for public/private utilities. Easements of greater width may be required along or across lots when necessary for the extension of main sewers or other utilities, or where both water and sewer lines are located in the same easement. A two (2) foot easement shall be required on one side of and adjacent to an alley to accommodate power lines.
(A) **Easement, Storm Drainage.** Adequate easements or drainage rights-of-way for storm water drainage shall be established along any natural drainage channel and in any other location(s) as may be necessary to provide satisfactory disposal of storm water from streets, alleys and all other portions of the subdivision. The location and minimum widths of such easements shall be determined by the City Engineer.

(B) **Easement, Slope.** Where a cut or fill for a street extends beyond the limits of the right-of-way, the developer shall provide a slope easement as determined by the City Engineer to be of sufficient area and limits to permit the construction and maintenance of the slope.

(C) **Easement Obstruction.** No tree, shrub or building shall be placed or erected in any easement for utility or drainage purposes or within the right-of-way of any street. The property owner shall bear all costs for demolition, removal or reconstruction of objects placed by a property owner or tenant in any easement.

### 14-8-6 EROSION AND SEDIMENTATION CONTROL.

The following standards apply to any development or redevelopment within the City or its subdivision jurisdiction. Before land is excavated, cleared, graded, transported, or otherwise disturbed by the movement of earth for purposes including, but not limited to, the construction of buildings, the mining of minerals, including sand, soil and gravel, the development of golf courses, and the construction of roads and streets by any person, partnership, or corporation, a building permit embodying the proposed earth movement shall be obtained from the Administrative Official where development comes under any one or more of the following provisions, unless such development is exempted therefrom by Section 14-8-7 or additional requirements apply, see Section 14-3-22.

(A) Excavation, fill or any combination thereof, will exceed **one hundred (100) cubic yards.**

(B) Fill will exceed **three (3) feet** in vertical depth at its deepest point measured from the natural ground surface.

(C) Excavation will exceed **four (4) feet** in vertical depth at its deepest point.

(D) Excavation, fill or any combination thereof will exceed an area of **five thousand (5,000) square feet.**

(E) Plant cover is to be removed from an area exceeding **five thousand (5,000) square feet.**

Before the building permit is issued by the Administrative Official as stated above, it shall be reviewed by the Plan Commission and approved by the City Council.

### 14-8-7 EROSION EXEMPTIONS.

The standards of Section 14-8-6 shall not be required in the following cases:
203.28

(A) Excavations below finished grade for septic tanks and drain fields, tanks, vaults, tunnels, equipment basements, swimming pools, cellars, or footings of buildings or structures for which a building or subdivision permit shall have been issued by the City unless part of a development which would otherwise require such a permit.

(B) Excavation or removal of vegetation in public utility easements by public utility companies for the purpose of installing underground utilities.

(C) Engaging in the following, but only if in connection with a farming or other agricultural or conservation enterprise and upon property zoned for conservation purposes and uses:

   (1) the construction of sod waterways, or
   (2) the construction of terraces, or
   (3) the construction of surface water diversions, or
   (4) the construction of grade stabilization structures, or
   (5) the tilling of the soil.

14-8-8 EROSION CONTROL: DEVELOPMENT PLANS. The following shall apply to any movement of earth and any sedimentation and erosion control plan and the granting of a permit for the execution of said plan as hereinafter provided. (See Section 14-3-22.)

(A) The smallest practical area of land shall be exposed at any given time during development.

(B) Such minimum area exposure shall be kept to as short a duration of time as is practical.

(C) Temporary vegetation or, where appropriate, mulching or other non-viable cover shall be used to protect area exposed during development.

(D) Sediment basins, debris basins, or silt traps shall be installed and maintained to remove sediment from run-off waters undergoing development.

(E) Provision shall be made to effectively accommodate the increased run-off caused by changed soil and surface conditions during and after development.

(F) Permanent, final plant covering or structures shall be installed as soon as possible.

(G) The plan of development shall relate to the topography and soils of the site so the lowest potential for erosion is created.

(H) Natural plant covering shall be retained and protected so far as is consistent with developing the site.

14-8-9 LANDSCAPE PLAN. A subdivision landscape plan shall be submitted to the Administrative Official. This plan shall contain types, sizes, and location of all proposed and existing plantings. The developer shall guarantee or insure by escrow agreement or Performance Bond, the completion of the landscaping as shown on the approved landscaping plan.
**14-8-10 LOT CONVEYANCE.** The owners may convey title to lots in the improved portion only of the subdivision; provided that streets, storm, and sanitary sewers, and sewage treatment plants be designed and built to serve the entire area or be initially developed in such a manner that they can easily be expanded or extended, as the case may be, to serve the entire development. No lot in a subdivision as defined herein may be conveyed unless a final plat of the property has been approved according to the requirements and provisions of this Code and recorded in the office of the St. Clair County Recorder of Deeds.

**14-8-12 PUBLIC UTILITY ENGINEERING REQUIREMENTS.** All proposed water and sanitary sewer facilities shall comply with the minimum requirements and recommendations of the Department of Public Health of the State of Illinois, the Illinois Environmental Protection Agency and the City Engineer, and shall be approved before a plat may be recorded. When a proposed subdivision is reasonably accessible to a public or private sewer system and/or water distribution system, the subdivider shall provide the subdivision with a complete sanitary sewer system and water distribution system to be connected to the proper public system(s). Each lot shall be provided at the property line with a system connection and all work shall be inspected by the City Engineer.

(A) **Wells.** In the absence of a public water supply, wells shall be constructed or a connection to a private water supply system shall be provided so that an adequate supply of potable water will be available to every lot within the subdivision.

(B) **Sewer System Connection.** Where an approved public or privately owned sanitary sewer is not reasonably accessible, but where plans for installation of sanitary sewers in the vicinity of the subdivision have been prepared and are approved by the Illinois Environmental Protection Agency, the developer shall install sewers in conformity with such plans, although a connection to an existing main may not be immediately practicable. In such cases, and until a connection is made with an approved public or privately owned sewer system, the
use of a sewage treatment facility will be permitted, provided such disposal facilities are constructed in accordance with the regulations and requirements of the Illinois Environmental Protection Agency and constructed under the observation and inspection of the City Engineer.

(C) **Individual Sewage Disposal Systems.** Individual sewage disposal systems, such as septic tanks and sand filter fields shall not be installed in any subdivision exceeding **ten (10) lots** or containing more than **ten (10) dwelling units** as shown on the preliminary plat or as subsequently developed. When individual sewage disposal systems are permitted, lot size shall be determined by the greater of (1) residential zoning district requirements or (2) requirements determined from the detailed soils overlay district. Such individual sewage disposal systems shall comply with **Section 14-3-21** and the requirements of the Illinois Department of Public Health.

14-8-13 **FIRE HYDRANTS.** The subdivider shall have fire hydrants installed as part of the water distribution system. Installation of hydrants shall be accomplished in such a manner that each lot is within **five hundred (500) feet** of a fire hydrant when measured along the center line of the right-of-way. No fire hydrant shall be installed on a main smaller than **six (6) inches** in diameter. Hydrants installed shall be of a kind approved by the City Fire Chief or designated official.

14-8-14 **SIDEWALKS.** Concrete sidewalks not less than **four (4) feet in width and four (4) inches in thickness** shall be constructed either within the street right-of-way and adjacent to the property line or within private property. The edge of the sidewalk shall be at the property line and sidewalks shall be separated from the curb by a planting strip between the curb and sidewalk. **(See Section 14-8-5(C).)** In certain soils associations, solid bituminous concrete sidewalks are preferred and may be approved on review.

(A) **Reinforcement.** Sidewalks shall be provided in **number six (#6)** reinforcing mesh across the entire width and breadth of driveway aprons or the concrete shall be at least **six (6) inches in thickness.**

(B) **Thickness.** Non-residential sidewalks within the non-residential site shall be concrete, **four (4) inches thick and four (4) feet in width** except at driveways where thickness shall be approved by the City Engineer and shall be adequate for the intended use.

(C) **Grade.** All walks shall be constructed at a grade no steeper than **ten percent (10%),** unless steps of adequate design with handrails are provided and approved by the City Engineer. **(See Section 14-8-24)**

(D) **Guarantee.** When sidewalks are a required part of the public improvements to be installed, they shall be installed before recording of the final plat or escrow funds shall be deposited or a performance bond shall be posted in accordance with **Section 14-10-6.**
(E) **Location.** Sidewalks are not required in Conservation Districts or when dwelling unit density is below **1.99 dwelling units per net acre.**

(1) Sidewalks on both sides of the street shall be required when dwelling unit/net density is **two (2)** or more units per net acre.

(2) Sidewalks are required on collector streets, near schools, shopping areas and similar areas.

(Ord. No. 1339-06; 12-19-06)

14-8-15 **BIKE PATHS AND TRAILS.** In addition to the sidewalk requirements, developers are encouraged to include other methods of pedestrian movement such as bike paths and nature trails in conjunction with or partially in substitution for sidewalks.

14-8-16 **SIDEWALK VARIANCE.** A variance may be granted by the Corporate Authority after Plan Commission review only if one or more of the following conditions are met:

(A) Where sidewalks are not deemed necessary for public safety or where topographical or other conditions make their installation and use impractical.

(B) Where the subdivision designed has submitted for review a proposed pedestrian movement plan that provides for more direct and safer movement of pedestrian traffic.

14-8-17 **STREET STANDARDS.** The arrangement, character, extent, width, grade and location of all streets shall be considered in their relation to existing and proposed streets, to topographical conditions, to public convenience and safety, and in their appropriate relation to the proposed uses of the land to be served by such streets. The following standards shall apply and the Corporate Authority may require a street to be dedicated to public use in order to provide circulation.

(A) **Plan Conformity Required.** Arrangement of streets shall reasonably conform to the community comprehensive plan.

(B) **Variable Standards.** All streets shall be designed to meet the minimum requirements set forth in this Section. The variable street specification table is designed to provide the maximum allowable flexibility in street construction standards, while at the same time, insuring the protection of the public interest. The widths of right-of-way and pavement are allowed to vary as functions of the type of street and the corresponding intensity of use. Additional right-of-way and pavement variations are possible, subject to a review of a planned development.

(C) **Additional Right-Of-Way.** Any subdivision platted along an existing street shall provide additional right-of-way, as necessary on either side, to meet the width requirements herein set forth. When the subdivision is located on
only one side of an existing street, one-half of the required right-of-way width shall be provided, measured from the center line of the right-of-way as originally established.

(D) **Slope Easement.** A subdivision plat involving new or existing streets crossing railroad tracks shall provide adequate rights-of-way, including approach rights-of-way and slope easements for construction of an underpass or overpass, unless otherwise specified by the City Engineer.

(E) **Access Requirements.** Where, in the opinion of the Plan Commission, it is desirable to provide future street access to adjoining areas, the streets and rights-of-way in the subdivision shall be extended to the property line. If deemed necessary by the Plan Commission, any temporary dead-end street shall be provided with a temporary turnaround. In no case, shall access be denied to any parcel or part of a parcel of ground by the subdividing of land. Streets shall intersect at right angles.

(F) **Street Specifications.**

(G) **Arterial Street Considerations.** Where a subdivision abuts or contains an existing or proposed arterial street, the Plan Commission may require frontage or service streets, double frontage lots with screen planting, and non-access strips at the rear of such lots.

(H) **Reserve Strips.** Reserved strips of land which control or limit access at the terminus of streets are prohibited.

(I) **Reverse Curves.** A tangent at least one hundred (100) feet long shall be introduced between reverse curves on local collector and collector streets.

(J) **Existing Street Improvement.** At such time as a subdivision is proposed adjacent to a street that is accepted and maintained by the City, that street shall be improved to handle the increased traffic due to said subdivision, and the additional right-of-way and the cost of improvement of half of the right-of-way adjacent to the proposed subdivision, shall be included in the overall subdivision improvements. The improvements shall be made to current City specifications and standards and shall comply with the transportation plan of the City.

(K) **Curb Radii.** A minimum radius of twenty (20) feet at street right-of-way intersection and minimum radius of thirty-two (32) feet at the back of the curb shall be required. Greater radii may be required at the intersection and at the back of the curb of a street with an arterial street. The City Engineer may permit comparable cut-offs or similar features in lieu of rounded corners.

(L) **Intersections.** All streets intersecting on arterial or collector streets shall be directly opposite existing or other proposed streets or shall be a minimum of three hundred (300) feet distant, as measured between street centerlines. Minor street intersection jogs or discontinuities with centerline off-sets of less than one hundred fifty (150) feet shall be avoided.

[Supplement No. 88; 02-01-19]
(M) **Intersection Improvements.** Where a collector street enters or connects with an arterial street, additional traffic lanes or other traffic safety improvements may be required.

(N) **Local Street Design.** Local streets shall be designed to discourage through traffic.

(O) **Flooding.** The Plan Commission shall not approve streets which are or will be subject to inundation or flooding.

### 14-8-18 STREET IMPROVEMENT STANDARDS.
All new streets and alleys shall be graded and surfaced in conformance with the standards of this Article. Higher construction standards may be required by the City Engineer when necessary due to soils bearing strength problems and similar problems. If the application is made in conjunction with a site plan submitted for approval, the application will be considered as part of the site plan; and no permit shall be issued without site plan approval. Following the review and inspection, the permit applications will be approved, disapproved, or approved with conditions by the Director of Land Use and Development as appropriate, in accordance with the provisions of this Chapter.

(G) **Tree Removal.**

(1) No tree or trees shall be removed prior to issuance of a building permit unless one of the following conditions exist:
   (a) The tree is located in a utility or drainage easement or public street right-of-way as recorded on a plat approved by the City Council. In the event that certain trees outside the above areas or trees based partially outside the easement are requested to be removed to allow the operation of equipment, the applicant shall submit a plat and site plan which indicates the exact operation area needed. The Director of Land Use and Development may approve selected removal under this condition.
   (b) The tree is diseased, injured, in danger of falling, interferes with utility service, creates unsafe vision clearance, or conflicts with other ordinances or regulations.
   (c) Except for the above, under no circumstances shall there be clear cutting of trees on a property prior to issuance of a building permit.

Said replacement trees shall be a minimum of **three (3) inches** caliper and **seven (7) feet** in height when planted, and shall be selected from the list of approved replacement trees maintained by the Director of Land Use and Development.

(I) **Tree Protection.** During any construction or land development, the developer shall clearly mark all trees to be maintained and may be required to erect and maintain protective barriers around all such trees or groups of trees. The developer shall not allow the movement of equipment or the storage of equipment, materials, debris or fill to be placed within the drip line of any tree.

During the construction stage of development, the developer shall not allow cleaning of equipment or material under the canopy of any tree or group of trees to remain. Neither shall the developer allow the disposal of any waste material such as, but not limited to, paint, oil, solvents, asphalt, concrete, mortar, etc., under the canopy of any tree or groups of tree to remain.

No attachment or wires of any kind, other than those of a protective nature, shall be attached to any tree.

(J) **Exceptions.** In the event that any tree shall be determined to be in a hazardous or dangerous condition so as to endanger the public health, welfare, or safety, and require immediate removal without delay, authorization may be given by the Director of Land Use and Development and the tree may then be removed without obtaining a written permit as herein required.

During the period of an emergency such as a tornado, storm, flood or other act of God, the requirements of this ordinance may be waived as may be deemed necessary by the City Council.

All licensed plant or tree nurseries shall be exempt from the terms and provisions of this Section only in relation to those trees planted and growing on the premises of said license, which are so planted and growing for the sale or intended sale to the general public in the ordinary course of said licensee's business.

The Plan Commission shall notify the Corporate Authority upon approval.

(B) **Corporate Authority Action.** The Corporate Authority shall accept or reject said preliminary plat within **thirty (30) days** after its next regularly scheduled meeting following the action granting approval of the preliminary plat by the Commission, unless such time is extended by written mutual agreement of the Corporate Authority and the applicant, or such preliminary plat will be deemed as approved. If final plat is approved or disapproved by the Corporate Authority, the findings of fact and reason for such action shall be noted in writing by resolution stating the findings of fact and reasons for approval or disapproval specifying with particularity the aspects in which the final plat fails to conform with the City's codes and/or ordinances.

(D) **Plat Approval.** If the final plat is approved by the Corporate Authority, the final plat shall be held by the City Clerk until such time as the subdivider has met the requirements of Section 14-10-6. The City Clerk shall retain in the City Clerk files, **one (1) copy** of the certified final plat and resolution and return **one (1) copy** of the certified plat and resolution to the applicant.

(E) **Recording.** No subdivision plat or re-plat within the incorporated area of the City or unincorporated lands lying within the area of jurisdiction of the City of Fairview Heights shall be filed for record or recorded in the Office of the Recorder of Deeds of St. Clair County, Illinois, unless and until the approval of the Corporate Authority is certified thereon, and the Mayor's signature is attested by the City Clerk. No lot shall be sold for such subdivision plat or re-plat until it has been approved by the Corporate Authority and filed for record in the Office of the Recorder of Deeds of St. Clair County, Illinois, as herein provided.

(F) **After Recording.** The subdivider shall provide to the City, upon recording of the plat **one (1) cloth print or polyester base film positive** of the final plat, as approved by the City, bearing the official stamp of the St. Clair County Recorder attesting its recording.
14-10-6  **LAND SUBDIVISION IMPROVEMENTS NOT INSTALLED AT TIME OF FILING FINAL PLAT.**  

(A) **Improvements Required Or Bond.** After the improvement plans have been approved, but before recording of the final subdivision plat, the developer shall, within the time limits of Section 14-10-5(D):

1. Complete the improvements in accordance with the approved improvement plans under the observation and inspection of the appropriate inspecting agency, or
2. Post a performance bond or enter into an escrow agreement in accordance with the provisions hereafter set forth. Said forms shall be reviewed by the City Attorney prior to being sent to the Corporate Authority.

(B) **Estimates.** A performance bond shall insure or guarantee, to the extent of the amount specified by the City Engineer in his estimate of the cost thereof, the construction and completion of the improvements shown by the approved improvement plans and such inspection fees as are required.

(C) **Escrow Option.** An escrow agreement shall provide that there shall be deposited with the City Clerk to be held in a special escrow account by the City Treasurer:

1. A cash amount which shall be not less than; or
2. An irrevocable letter of credit or commitment from a lending institution to the City guaranteeing to the City the availability, from time to time, upon demand, of a sum which shall be not less than; or
3. Certificates of Deposit, Treasury Bills or other readily negotiable instruments, the type of which has been approved by the City Treasurer, endorsed to the City and the cash value of which shall be in an amount not less than the amount specified by the City Engineer in his estimate of the cost of the improvements as reflected by the approved improvement plans and such inspection fees as are required.

(D) **Bond, Escrow, Repository, And Release.** The bond shall remain in effect or the escrowed sum shall be held in the escrow account by the City Treasurer until such time as the City Clerk shall, by written authorization to the City Treasurer release the surety from the obligation of the bond or the City Treasurer from his obligation to retain the escrowed sum in the escrow account, which release may be partial and may occur from time to time, as improvements are completed and approved; provided, however:

1. Authorization to release up to **ninety percent (90%)** of the escrow or bond amount may be authorized by the City
Clerk upon written notification from the City Engineer. Such authorization by the City Engineer shall only be given as improvements are installed equal in value to funds released.

(2) The remaining **ten percent (10%)** may only be released when the City Engineer notifies the Administrative Official, in writing, that all improvements have been completed in a satisfactory manner. The Administrative Officer shall then notify the City Clerk that authorization may be given to release all funds. Whenever improvements are to be dedicated to another authority, school district, township, park district, county or other government, such improvements shall be accepted or approved before the release of all funds.

(E) **Bond, Escrow Time Limits.** The term of the Performance Bond or the Escrow Agreement shall not exceed **two (2) years** in duration, subject to the following:

(1) If, at the end of the **two (2) year period,** all the improvements reflected by the approved improvement plan have not been completed, the Administrative Official may extend the term of the Land Subdivision Bond or the Escrow Agreement for a period not to exceed **one (1) additional year** if, after review, such longer period is necessary to facilitate adequate and coordinated provisions for transportation, water, sewerage schools, parks, playgrounds, or other public requirements. If said improvements have not been completed at the end of the **two (2) year** period or as extended, the Administrative Official may:

(a) Require the surety to perform on the bond and pay to the City such amount as shall be equal to the lesser of the amount required to complete the improvements or the amount of the bond not theretofore released; or

(b) Require the escrow agent to remit to the City, in cash or negotiable instruments constituting the escrow sum, as the case may be, the balance in the Escrow Account required to complete the improvements and the balance, if any, in the Escrow Account which exceeds such amount shall be returned to the developer; or

(c) Require the developer to submit a new Performance Bond or Escrow Agreement which has been recalculated in order to allow for any inflation in the case of constructing improvements.
(2) If the surety fails to perform on the bond within **thirty (30)** days after written request, the Administrative Official shall direct the City Attorney to take immediate action to require performance by the surety under the bond to secure the amount required.

(F) **Sureties.** To be eligible, all sureties shall be approved by the City Treasurer. All sureties shall be subject to spot audits by the City under the supervision of the City Treasurer. If the surety fails to comply with any of the provisions of the Performance Bond, the surety shall not thereafter be allowed to act as surety for any subdivision improvement within the jurisdiction of the City for a period of **two (2)** years.

14-10-7 **SUBDIVISION VARIATION, PRELIMINARY AND FINAL PLAT.** The Plan Commission may recommend granting a variance from the subdivision provisions of this Code provided, in each case, that **three (3)** of the following provisions, including (A), and (B) are met:

(A) The subdivider shall apply in writing for such a variance upon filing of the preliminary plat with the City Clerk; and

(B) Any variance granted shall comply with the Intent and Purpose of this Code.

(C) The subdivider shall show that because of topographical or other physical conditions peculiar to the site, the provisions of this Code would cause an unnecessary hardship if strictly adhered to; or

(D) After a design review by the Plan Commission, the variation will afford better site design and land utilization.

14-10-7.1 **PLAN COMMISSION, CORPORATE AUTHORITY ACTION.** Variations proposed by the applicant shall be entered in the Plan Commission’s minutes stating all conditions requiring the variance and the exact terms of the variances shall be clearly set forth; a copy shall be attached to the plat and forwarded to the Corporate Authority. (2) The effect the development would have on schools, traffic, streets, shopping, public utilities and adjacent properties;
(3) Is the application necessary for the public convenience at that location?
(4) In the case of an existing nonconforming use, will a special-use permit make the use more compatible with its surroundings?
(5) Is the application so designed, located and proposed to be operated that the public health, safety, and welfare will be protected?
(6) Will the application cause injury to the value of other property in the neighborhood in which it is located?
(7) Will special use be detrimental to the essential character of the district in which it is located?

(B) **Special-Use Expansion.** Any expansion of a special use involving the enlargement of the buildings, structures, and land area devoted to such use shall be subject to the procedures set forth in this section.

(C) **Procedures Before Plan Commission, Public Hearing Notice.** Before giving an advisory report of an initial recommendation on any proposed amendment or special use permit, the Plan Commission shall first conduct a public hearing thereon, the date and place of which shall be fixed in advance by the Plan Commission at any regular meeting. All requirements for public hearings, meetings, notice and evidence contained in Section 14-10-13 (A), (B), and (D) shall apply to the Plan Commission in any action concerning a special-use permit or zoning amendment. Special or regular meetings shall be determined according to the adopted bylaws of the Plan Commission. Public hearing notices shall also be sent to the presiding officer of the appropriate fire and school district.

**14-10-9 CORPORATE AUTHORITY.** Upon receipt of the Planning Commission's or Zoning Board of Appeals' advisory report, the Corporate Authority shall act according to its legislative procedure; however, any decision of the Corporate Authority contrary to a negative recommendation of the Planning Commission or Zoning Board of Appeals shall require a **two-thirds (2/3)** majority vote of the Corporate Authority for passage. If the Planning Commission or Zoning Board of Appeals recommended an application and the Corporate Authority denies the application, a **two-thirds (2/3)** majority vote shall be required to deny the application. Every special-use permit granted shall be by Resolution and every variance shall be by Ordinance and shall be accompanied by a finding of fact specifying the reason for making such special-use permit or variance. *(Ord. No. 1091-02; 04-16-02)*
DEVELOPMENT CODE 14-10-10

14-10-10  **CHANGES TO SPECIAL-USE PERMITS.** Changes to Special-use Permits may be approved by a Committee consisting of the Director of Land Use and Development, the Chairman of the Council Committee charged with planning review, and the Chairman of the Plan Committee. Such approval shall require:

(A) The written request from the applicant for the proposed change, including such graphic description and/or other materials as the Committee may require in order to determine the full nature and impact of the request; and

(B) A written determination by the Committee, signed by all members, that the requested change is minor and remains within the intent of the original permit and is therefore approved. Such approval shall be specific and reasons for the approval clearly stated, with findings of fact to support the reasoning.

The Committee shall act upon all such Special-use Permit change requests within **fifteen (15) working days** of the original change request. Approval of changes by this Committee shall require a unanimous vote and such vote shall be recorded in the approved amended plans specifying the action taken and reason(s) for the action. The Plan Commission and City Council shall be notified in writing, **three (3) days** prior to the next regular meeting of the City Council, of any action taken by this Committee with record of the action entered in their respective minutes.

[Supplement No. 88; 02-01-19]
14-10-13 ZONING BOARD OF APPEALS: POWERS, DUTIES, PROCEDURES. The “Board”, when used in this Section shall be construed to mean the Zoning Board of Appeals. The Board shall consist of seven (7) members appointed by the Mayor with the consent of the City Council. The terms of office shall be five (5) years. The Chairman of the Board shall be appointed by the Mayor with the consent of the City Council and shall hold office for one (1) year.

(A) Meetings. Meetings of the Zoning Board of Appeals shall be held at the call of the Chairman or any two (2) members, or at such times as the Board may determine. All hearings and deliberations conducted by said Board shall be open to the public. The Board shall keep minutes of its proceedings, showing the vote of each member upon each question, or in the absence of or failing to vote, indicating such fact, and shall also keep records of its hearings and other official actions. Findings of fact shall be included in the advisory report of each case and the reason for recommending the denial of such application shall be specified. Every recommendation of the Board shall be transmitted to the Corporate Authority and shall be a public record. The Board shall adopt its own rules and procedures, not in conflict with this Code or with Illinois Compiled Statutes.

(B) Appeals. Any appeal may be taken to the Zoning Board of Appeals by any person, firm or corporation, or by any officer, department, board or bureau affected by a decision of the Administrative Official concerning the zoning provisions of this Code. Such appeal shall be taken within forty-five (45) days by filing with the Administrative Official and Zoning Board of Appeals a notice of appeal specifying the grounds thereof. The Administrative Official shall thereupon transmit to the Board all papers constituting the record upon which the action appealed from was taken. Any appeal shall stay all proceedings in furtherance of action appealed from, unless the Administrative Official certifies to the Zoning Board of Appeals after the notice of appeal has been filed with him that, by reason of facts stated in the certificate, the stay would, in his opinion, cause imminent peril to life or property, in which case, the proceedings shall not be stayed otherwise than by a restraining order which may be granted by the Zoning Board of Appeals or by a Circuit Court on application, or notice to the Administrative Official and on due cause shown. The Board shall select a reasonable time and place for the public hearing of the appeal and give due notice by first-class mail to the parties concerned, and shall render a decision on the appeal without unreasonable delay. Any party may appear and testify at the hearing, either in person or by duly authorized agent or attorney. The Board shall recommend to the Corporate Authority, reversal or affirmation, wholly or partly, or may recommend a modification to the order, requirement, decision or determination appealed from to the extent and in the manner that the Board may decide to be fitting and proper to the premises.

(C) Powers And Duties. The Zoning Board of Appeals shall have all the powers and duties prescribed by law and by this Code, including the following:

(1) Interpretation. Upon an appeal from a decision by any Administrative Official to recommend to the Corporate Authority any question involving the interpretation of any provision or term of the zoning provisions of this Code,
including the determination of the exact location of any district boundary if there is uncertainty with respect thereto.

(2) **Area-Bulk Variance.** To recommend that the Corporate Authorities vary or adapt the strict application of the requirements of the zoning provisions of this Code in the case of irregular, narrow, shallow, or steep lots, or other physical conditions, whereby such strict application would result in such practical difficulty and/or unnecessary hardship as would deprive the owner of the reasonable use of the land or building involved, but in no other case. In recommending an area-bulk variance, the Board shall prescribe conditions that it deems to be necessary or desirable for the public interest, convenience or welfare.  

*(Ill. Comp. Stat., Ch. 65; Section 5/11-13-5)*

No area-bulk variance in the application of any provisions of this Code shall be recommended by the Board, unless it finds:

(a) That special circumstances or conditions fully described in findings of fact apply to the land or buildings for which the area-bulk variance is sought, which circumstances or conditions are peculiar to such land or buildings and do not apply generally to the land or buildings in the neighborhood, and that said circumstances or conditions are such that strict application of the provisions of this Code would deprive the applicant of a reasonable use of such land or building;

(b) that, for reasons fully set forth in the findings, the recommending of the area-bulk variance is necessary for the reasonable use of land or buildings, and that the variance as recommended by the Board is the minimum variance that will accomplish this purpose;

(c) that the recommending of this variance will be in harmony with the general purpose and intent of this Code and will not be injurious to the neighborhood or otherwise detrimental to the public welfare. In addition to considering the character and use of adjoining buildings and those in the vicinity, the Board, in making its recommendations shall take into account whether the conditions of the subject premises are peculiar to the lot or tract described in the petition. Should it be determined that the conditions are part of the general condition of the
neighborhood, then it shall be so noted and the Board may recommend appropriate corrections to Code.

(D) **Procedure.**

(1) The Zoning Board of Appeals shall act in accordance with the procedure specified by this Code. A simple majority vote of members in attendance shall be sufficient to authorize any action of the Board except that an affirmative vote of at least **four (4)** members shall be necessary to pass motions to recommend appeals from decisions by any Administrative Official, to recommend area-bulk variances under **Section 14-10-13(C)**, to recommend interpretations of the **Provisions of Chapter 14**, to issue recommendations under **Section 14-3-20**. All appeals and applications to the Board shall be in writing. Every appeal or application shall refer to the specific provision of the Code involved, and shall exactly set forth the interpretation that is claimed, the matter for which the area-bulk variance is sought, and the grounds on which it is claimed that the variance should be granted, as the case may be.

(2) **Notice and Hearing.** No action of the Zoning Board of Appeals shall be taken on any case until after notice has been given that a public hearing has been held as follows:

(a) A notice of the time and date of said hearing and a brief summary of explanation of the subject matter of the hearing shall be published in a newspaper of general circulation within the City at least **fifteen (15) days**, but not more than **thirty (30) days** prior to the hearing date.

(b) Said notice in the foregoing paragraph (a) shall be sent by first-class mail to the applicant, owners of property in question at the time the public hearing notice is published, and to all adjacent property owners and/or residents.

(3) The Zoning Board of Appeals shall issue an advisory report within **ten (10)** municipal working days to the Corporate Authority concerning each application it has reviewed and the Corporate Authority shall act in accordance with **Section 14-10-9**. The advisory report shall address the provisions of **Section 14-10-13(C)(2)**.

(E) **Clarification Of Intent.** Whenever the Administrative Official is uncertain as to the legislative intent of any section of Chapter 14, and prior to an administrative decision, the Administrative Official shall forward such inquiries to the Aldermanic Planning Committee for clarification. (#686-90; 07-17-90)

(B) **Resident’s Register.** The Administrative Official shall have the power to inspect the register containing a record of all residents of the mobile home park.

14-12-3  NOTICES, HEARINGS AND ORDERS. Whenever the Administrative Official has determined from inspection or from other means that reasonable grounds exist to believe there has been a violation of any provision of this Code, the Administrative Official shall give notice of such violation to the person
to whom the permit or license is issued. Such notice shall (1) be in writing; (2) include a statement of the reasonable time for the performance of any act it requires; (3) be served upon the owner or his agent as the case may require, provided that such notice or order shall be deemed to have been properly served upon such owner or agent when a copy thereof has been sent by registered mail to his last known address or when he has been served with such notice by any method authorized or required by the laws of this state; (4) contains an outline of remedial action which, if taken, will effect compliance with the provisions of this Code.

CHAPTER 15

BUILDING CODES

ARTICLE I – PROPERTY MAINTENANCE CODE

15-1-1 ADOPTION. International Property Maintenance Code, 2006, as published by the International Code Council, Inc. is hereby adopted as Chapter 15, BUILDING CODES, ARTICLE I - PROPERTY MAINTENANCE CODE, of the City of Fairview Heights, Illinois.

15-1-2 ADDITIONS, INSERTIONS AND CHANGES. The International Property Maintenance Code is amended and revised in the following respects:

(A) Section 101.1: City of Fairview Heights.

(B) Section 102.3 is deleted in its entirety and a new Section 102.3 is inserted as follows:

102.3

(1) Application of Other Building, Construction Codes.

(a) Any repairs or alterations to a structure or changes of use therein, which may be caused directly or indirectly by the enforcement of this Code shall be done in accordance with the procedures and provisions of the Building Code now in existence.

(b) Any repair, alteration, or replacement of structural elements of a building, which may be required by the provisions of these guidelines, shall be done in accordance with the applicable sections of the Building Code, Electrical Code, Plumbing Code or other applicable code or ordinance of this jurisdiction.

(C) Section 103 is deleted in its entirety and a new Section 103 is inserted as follows:

103 CODE OFFICIAL DUTIES AND POWERS OF CODE OFFICIAL. The Code Official shall enforce all the provisions of this Code relative to the maintenance of structures and
premises, except as may otherwise be specifically provided for by other regulations.

(1) **Notices and Orders.** The Code Official shall issue all necessary written notices and orders to abate illegal or unsafe conditions to insure compliance with the Code requirements for the safety, health and general welfare of the public.

(2) **Coordination of Enforcement.** Inspection of premises, the issuance of written notices and orders and enforcement thereof shall be the responsibility of the Code Officials so charged by the City. Whenever, in the opinion of a Code Official initiating an inspection under this Code, it is deemed necessary or desirable to have inspections by any other department, the Official shall make reasonable effort to arrange for the coordination of such inspections so as to minimize the number of visits by inspectors and to confer with the other departments for the purpose of eliminating conflicting orders before any are issued. A department shall not, however, delay the issuance of any emergency order which it determines must be ordered.

(D) Section 104.4 is deleted in its entirety and a new Section 104.4 is inserted as follows:

**104.4 RIGHT OF ENTRY.** If any owner, occupant or other person in charge of a structure subject to the provisions of this Code refuses, impedes, inhibits, interferes with, restricts, or obstructs entry and free access to any part of the structure where inspection authorized by this Code is sought, the administrative authority may seek, in a court of competent jurisdiction, an order that such owner, occupant, or other person in charge cease and desist with such interference.

(1) **Access of Owner or Operator.** Every occupant of a nonresidential structure or premises shall give the owner or operator thereof, or agent or employee, access to any part of such structure or its premises, at reasonable times for the purpose of making such inspections as are necessary to comply with the provisions of this Code.

(2) **Credentials.** The Code Official or the Code Official’s authorized representative shall disclose proper credentials of their respective office for the purpose of inspecting any and all buildings and premises in the performance of duties under this Code.

(E) Section 302.4 insert: 8 inches (200 mm).
Section 303.14 insert: April 15 to October 15.

1) 304.18.1 Deleted

Section 602.3 insert: October 1 to May 15.

**Occupancy Permit Required.**

1) Hereinafter, upon change of occupants, no residential or non-residential property shall be occupied or used until an occupancy permit shall have been issued by the Code Official stating that the premises complies with the provisions of this Code.

(a) **Amend Section 404.5 as follows:** Dwelling units shall not be occupied by more occupants than permitted by the minimum area requirements of Table 404.5 from the 2003 Code.

2) Multiple-family complexes having fifty (50) or more units shall have an annual inspection of all common and mechanical areas in addition to any inspections required for each unit.

3) The fee for the initial occupancy permit shall be Fifty Dollars ($50.00) for each dwelling unit occupied and Ten Dollars ($10.00) for re-issuance during the twelve (12) months after the date of the inspection certificate. If an inspection certificate has been issued, then an occupant may move in on weekends and holidays when the department, responsible for issuing occupancy permits, is closed. The occupant is required to obtain the written permit three (3) days after the department is open.

4) Multiple-family complexes as identified in Section 15-1-2(H)(2) shall pay Two Hundred Dollars ($200.00) for the annual inspection of all common and mechanical areas.

**Inspection Required.** An annual inspection shall be required on the following non-residential structures or premises:

1) All structures in the RI Use Group as defined in the International Building Code; i.e., hotels, motels;

2) Any structures within an Assembly Use as defined in the International Building Code, which, in the determination of the Code Official, presents a potential public safety hazard to occupants.

3) Any structure in H (Hazardous) Use Group as defined by the International Building Code.

**Application Dwelling Unit.** It shall be unlawful for any person to knowingly make any false statement on an application for an occupancy permit as to the names, relationships, number of occupants or use of the dwelling unit.

**Action on an Application.** The Code Official shall examine, or cause to be examined, all applications for permits within a reasonable time after filing.
He shall cause the premises to be inspected within **seven (7) working days** after filing. If premises are not inspected within the **seven (7) working days**, then the Permit and Certificate of Compliance shall be automatically issued without an inspection. If the premises are not in compliance with this Code and all laws and ordinances applicable thereto, the Code Official shall provide the applicant with a list of defects that are not in compliance. Said defects shall be listed with as much specificity as possible. The owner or occupant of every dwelling unit and its premises will give the Code Official free access thereto, at a reasonable time, for the purpose of such inspection.

There shall be no fee for the original inspection, or the first re-inspection, if necessary. A re-inspection shall be made within **seven (7) working days**, from receipt of the written request, if not then the Permit and Certificate of Compliance shall be automatically issued without a re-inspection. If specific defects are found in the original inspection, the Code Official shall not require additional defects to be corrected that were discovered on a re-inspection unless the new defects occurred after the original inspection. There shall be a fee of **Fifty Dollars ($50.00)** for every re-inspection after the first one.

**L** **Issuance of Permit.** If all the fees are paid and the Code Official is satisfied that the premises and its occupancy are in compliance with this Code and all laws and ordinances applicable thereto, the Code Official shall issue the occupancy permit as soon as practicable.

**M** **Conditional Permit.** Occupancy shall be permitted on a conditional basis when in the judgment of the Code Official practical difficulties interfere with the completing all repairs required to bring the premises into full compliance with this Code prior to permitting occupancy. However, no conditional permit shall be issued when there is a condition on the premises which can threaten the health or safety of an occupant. No conditional permit shall be issued under the provisions of this Code for premises which have been newly constructed, newly altered, or on which a change in use is proposed unless a Certificate of Use and Occupancy has first been issued under the provisions of the Building Code.

**N** **Rejection of Application.** If the application does not comply with the requirements of all pertinent laws, the Code Officials shall reject such application in writing, stating the reasons therefore.

**O** **Suspension of Permit.** Any permit issued shall become invalid if the occupancy is not commenced within **six (6) months** after issuance of a permit.

**P** **Revocation of Permit.** The Code Official may revoke a permit in case of any false statement or misrepresentation of facts in the application on which a permit was based, or in the event a structure or part thereof is condemned pursuant to this Code.

**Q** **Existing Occupancies.** The provisions of **Section 15-1-2(H)** shall not apply to any residential or non-residential occupancy in existence at the time this ordinance takes effect, unless there is a change in the occupancy of any person after said date, or complaint filed.
Demolition of Dangerous and Unsafe Structures.

(1) **Defined.** The term “dangerous structure” as used in this Chapter is hereby defined to mean and include:

(a) Any building, shed, fence or other manmade structure which is dangerous to the public health because of its condition and which may cause or aid in the spread of disease or injury to the health of the occupants of it or neighboring structures;

(b) Any building, shed, fence or other manmade structure which because of faulty construction, age, lack of proper repair or any other cause is expressly liable to fire and constitutes or create a fire hazard;

(c) Any building, shed, fence or other manmade structure which by reason of faulty construction, or any other cause is liable to cause injury or damage by collapsing or by a collapse or fall of any part of such structure;

(d) Any building, shed, fence or other manmade structure which because of its condition or because of lack of doors or windows is available to and frequented by individuals who are not lawful occupants of such structure.

Any such dangerous building in the City is hereby declared to be a violation of the Property Maintenance Code. When any such dangerous building in the City or part thereof is found by the Code Official to be unsafe, or when a structure or part thereof is found unfit for human occupancy or use, or is found unlawful, it shall be condemned pursuant to the provisions of this article and shall be placarded and vacated. It shall not be reoccupied without approval of the Code Official.

(2) **Prohibition.** It shall be unlawful to maintain or permit the existence of any dangerous building in the City; and it shall be unlawful for the owner, occupant or person in custody of any dangerous building to permit the same to remain in a dangerous condition or to occupancy such building or permit it to be occupied while it is or remains in a dangerous condition.

(3) **Notice.** Whenever the Code Official shall be of the opinion that any building or structure in the City is a dangerous building, he shall placard the building. Upon doing so, he shall cause written notice to be served upon the owner thereof and upon the occupant thereof, if any, by certified mail or by personal service. Such notice shall state that the
building has been declared to be in a dangerous condition
and such dangerous condition must be removed or remedied by repairing or altering the building or by demolishing it; and that the condition must be remedied at once. The causes and facts for the designation must be included in the notification as well as the date of the inspection.

(4) **Lien and Abatement.** If the notice sent to the owner or occupant is to inform him of violation of Section 15-1-2(R)(1), and said owner or occupant fails to remedy the situation within **thirty (30) days** from the date when the notice was served upon them, the Code Official may proceed to remedy the condition by having the building enclosed through boarding up or any other means.

If the building is enclosed or boarded up by the City, the cost and expenses thereof shall be recorded in the following manner:

The City or the person performing the service by authority of the City in its or his own name, may file Notice of Lien in the Office of the Recorder of Deeds of St. Clair County. The Notice of Lien shall consist of a sworn statement setting out:

(a) A description of real estate sufficient for identification thereof.

(b) The amount of money representing the cost and expenses incurred or payable for the service.

(c) The date or dates when said cost or expenses were incurred by the City and shall be filed within **ninety (90) days** after the cost and expenses incurred.

Upon payment of the cost and expenses after the Notice of Lien has been filed, the lien shall be released by the City or person in whose name the lien has been filed and the release shall be filed of record in the same manner as filing Notice of Lien.

The lien may be enforced by proceedings to foreclose it as in the case of mortgages or mechanics lien and such suits to foreclose such lien shall be commenced within **three (3) years** after the date of default.

If the owner or occupant fails to comply with a notice of violation of Section 15-1-2(R)(1)(a), (b) and (c), the City may demolish, repair or cause the demolition or repair of the dangerous and unsafe building, but before it may do so, the City shall apply to the Circuit Court of St. Clair County for an order authorizing such action to be taken with respect to any such building if the owner or owners thereof, including the lien holders of record after at least **thirty (30) days** written notice by mail or personal service to do so have
failed to put
such building in a safe condition or demolish it. Whereupon
diligent search of the identity or whereabouts of the owner
or owners of any such building, including lien holders of
record is not ascertainable, notice mailed to the person or
persons in whose name such real estate was last assessed is
sufficient notice under this Section. The cost of such
demolition or repair incurred by such municipality or by a
lien holder of record is recoverable from the owner or
owners of such real estate and is a lien thereon which lien is
superior to all prior existing liens or encumbrances except
taxes; provided that within **ninety (90) days** after such
repair or demolition the City or person performing the
service by authority of the City in its or his own name shall
file Notice of Lien of such cost and expenses incurred in the
Office of the Recorder of the Deeds in St. Clair County,
Illinois. The Notice must consist of a sworn statement
setting out:
(a) A description of the real estate sufficient for
identification thereof.
(b) The amount of money representing the cost and
expenses incurred.
(c) The date or dates when the cost or expenses was
incurred by the municipality, or by the lien holder of
record.
Upon payment of the cost and expenses by the owner of or
person interested in the property after Notice of Lien has
been filed, the lien shall be released by the municipality or
person in whose name filed and the release may be filed of
record in the case of filing the Notice of Lien. The lien may
be enforced by proceedings to foreclose as in the case of
mortgage or mechanics liens. Suit to foreclose this lien
must be commenced within **three (3) years** after the date
of filing Notice of Lien.
At all times the City will follow the guidelines outlined in the
State Statutes 65 ILCS 5/11-31-1 for demolition
processes.

(5) **Fast Track.** If a property is eligible, it will follow the Fast
Track demolition process outlined in the Statute.

(6) **Penalty.** Any person violating any provision of this Section
or any part thereof shall be fined in an amount not less than
Two Hundred Fifty Dollars ($250.00) nor more than
One Thousand Dollars ($1,000.00). Each day such
violation is committed or permitted to continue shall
constitute a separate offense and shall be punishable as
such. The court shall also order as part of the judgment that the defendant comply with all applicable codes and ordinances relating to the property which is the subject of the violation.

18-1-2 DEFINITIONS. For the purposes of this Code, the following definitions are adopted:
(A) "Base Flood". The flood having a one percent (1%) probability of being equaled or exceeded in any given year. The base flood is also known as the "One Hundred (100) Year Flood". The base flood elevation at any location is as defined in Section 18-1-3 of this Code.
(B) "Base Flood Elevation" (BFE). The elevation in relation to Mean Sea Level of the crest of the base flood.
(C) "Building". A structure that is principally above ground and is enclosed by walls and a roof including manufactured homes and prefabricated buildings and gas and liquid storage tanks. The term also includes recreational vehicles and travel trailers to be installed on a site for more than one hundred eighty (180) days per year.

drilling, mining, filling, dredging, grading, excavating, paving, or other alterations of the ground surface;

storage of materials including the placement of gas and liquid storage tanks; and

channel modifications or any other activity that might change the direction, height, or velocity of flood or surface waters.

“Development” does not include maintenance of existing buildings and facilities; resurfacing roads; or gardening, plowing, and similar practices that do not involve filling, grading, or construction of levees.

(E) **“FEMA”.** Federal Emergency Management Agency.

(F) **“Flood”.** A general and temporary condition of partial or complete inundation of normally dry land areas from the overflow, the unusual and rapid accumulation, or the runoff of surface waters from any source.

(G) **“Flood Fringe”.** That portion of the floodplain outside of the regulatory floodway.

(H) **“Flood Insurance Rate Map”.** A map prepared by the Federal Emergency Management Agency that depicts the floodplain or special flood hazard area (SFHA) within a community. This map includes insurance rate zones and may or may not depict floodways and show base flood elevations.

(I) **“Floodplain” and “Special Flood Hazard Area (SFHA)“** are synonymous. Those lands within the jurisdiction of the City of Fairview Heights, the extraterritorial jurisdiction of the City of Fairview Heights or that may be annexed into the City of Fairview Heights, that are subject to inundation by the base flood. The floodplains of the City of Fairview Heights are generally identified as such on the countywide Flood Insurance Rate Map of St. Clair County prepared by the Federal Emergency Management Agency and dated **November 5, 2003**. Floodplain also includes those areas of known flooding as identified by the City of Fairview Heights.

(J) **“Floodproofing”.** Any combination of structural or nonstructural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate, property and their contents.

The floodway for the floodplains of Schoenberger Creek and Ogles Creek shall be as delineated on the countywide Flood Insurance Rate Map of St. Clair County and dated November 5, 2003. The floodways for each of the remaining floodplains of the City shall be according to the best data available from Federal, State, or other sources.

“IDNR/OWR”. Illinois Department of Natural Resources/Office of Water Resources.

“Manufactured Home”. A structure transportable in one (1) or more sections, that is built on a permanent chassis and is designed to be used with or without a permanent foundation when connected to the required utilities.

“NFIP”. National Flood Insurance Program.

“REPEATED LOSS”. Flood-related damages sustained by a structure on two separate occasions during a 10-year period for which the cost of repairs at the time of each such flood event on the average equals or exceeds twenty-five percent (25%) of the market value of the structure before the damage occurred.

“SFHA”. See definition of floodplain.

“Substantial Damage”. Damage of any origin sustained by a building whereby the cost of restoring the building to its before damage condition would equal or exceed fifty percent (50%) of the market value of the building before the damage occurred regardless of the actual repair work performed. Costs associated with volunteer labor and materials shall be estimated and counted toward the restoration costs.

“Substantial Improvement”. Any repair, reconstruction or improvement of a structure, the cost of which equals or exceeds fifty percent (50%) of the market value of the structure, either (a) before the improvement of repair is started, or (b) if the structure has been damaged, and is being restored, before the damage occurred.

“Substantial Improvement” is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term does not, however, include either (1) any project for improvement of a structure to comply with existing state or local health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions or (2) any alteration of a structure listed on the National Register of Historic Places or the Illinois Register of Historic Places.

(4) designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel or seasonal use.

18-1-3 BASE FLOOD ELEVATION. This Code’s protection standard is the base flood. The best available base flood elevation data are listed below. Whenever a party disagrees with the best available data, the party may finance the detailed engineering study needed to replace the existing data with better data and submit it to the Federal Emergency Management Agency for approval.

(A) The base flood elevation for the floodplain of the Schoenberger Creek and Ogles Creek shall be as delineated on the 100-year flood profiles in the countywide Flood Insurance Study of St. Clair County prepared by the Federal Emergency Management Agency and dated November 5, 2003.

(B) The base flood elevation for each floodplain delineated as an “AH Zone” or “AO Zone” shall be that elevation (or depth) delineated on the countywide Flood Insurance Rate Map of St. Clair County, dated November 5, 2003.

(C) The base flood elevation for each of the remaining floodplains delineated as an “A Zone” on the countywide Flood Insurance Rate Map of St. Clair County, dated November 5, 2003, shall be according to the best data available from federal, state or other sources. Should no other data exist, an engineering study must be financed to determine base flood elevations.

18-1-4 DUTIES OF THE DEPARTMENT OF LAND USE AND DEVELOPMENT. The Department of Land Use and Development shall be responsible for the general administration of this Code and ensure that all development activities within the floodplains under the jurisdiction of the City meet the requirements of this Code. Specifically, the Building Official shall:

(A) Process development permits in accordance with Section 18-1-5;

(B) Ensure that all development in a floodway (or a floodplain with no delineated floodway) meets the damage prevention requirements of Section 18-1-6.

(C) Ensure that the building protection requirements for all buildings subject to Section 18-1-7 are met and maintain a record of the “as-built” elevation of the lowest floor (including basement) or floodproof certificate;

(D) Assure that all subdivisions and annexations meet the requirements of Section 18-1-8;

(E) Ensure that water supply and waste disposal systems met the Public Health standards of Section 18-1-9;

(F) If a variance is requested, ensure that the requirements of Section 18-1-9 are met and maintain documentation of any variances granted;

(G) Inspect all development projects and take any and all actions outlined in Section 18-1-12 as necessary to ensure compliance with this Code;
(H) Assure that applicants are aware of and obtain any and all other required local, state and federal permits;
(I) Notify IDNR/OWR and any neighboring communities prior to any alteration or relocation of a watercourse;
(J) Provide information and assistance to citizens upon request about permit procedures and floodplain construction techniques;
(K) Cooperate with State and Federal floodplain management agencies to coordinate base flood data and to improve the administration of this Code; and
(L) Maintain for public inspection base flood data, floodplain maps, copies of state and federal permits, and documentation of compliance for development activities subject to this Code.
(M) Perform site inspections to ensure compliance with this Code including post damage site inspections in order to make substantial damage determinations on structures within the floodplain.
(N) Maintain the accuracy of floodplain data and maps including the notification of INDR/OWR and submitting information to FEMA within six (6) months whenever a modification of the floodplain may change the base flood elevation or result in a change to the FIRM.

18-1-5 DEVELOPMENT PERMIT. No person, firm, corporation, or governmental body not exempted by state law shall commence any development in the floodplain without first obtaining a development permit from the Department of Land Use and Development. The Building Official shall not issue a development permit if the proposed development does not meet the requirements of this Code.

(A) The application for development permit shall be accompanied by:
(1) drawings of the site, drawn to scale showing property line dimensions;
(2) existing grade elevations and all changes in grade resulting from excavation or filling;
(3) the location and dimensions of all buildings and additions to buildings, and
(4) the elevation of the lowest floor (including basements) of all proposed buildings subject to the requirements of Section 18-1-7 of this Code.

(B) Upon receipt of an application for development permit, the Building Official shall compare the elevation of the site to the base flood elevation. Any development located on land that can be shown by survey data to have been higher than the base flood elevation as of the date of the site's first Flood Insurance Rate Map identification is not in the floodplain and therefore not subject to the requirements of this Code. Conversely, any land shown to be below the base flood elevation and which is hydraulically connected to the flooding source, but not shown
on the Flood Insurance Rate Map, shall be subject to the provisions of this Code. The Department of Land Use and Development shall maintain documentation of the existing pre-development ground elevation at the development site and certification that this ground elevation existed prior to the date of the site’s first Flood Insurance Rate Map identification.

18-1-6 PREVENTING INCREASED FLOOD HEIGHTS AND RESULTING DAMAGES. Within the floodway identified on the countywide Flood Insurance Rate Map of St. Clair County, dated November 5, 2003, and within all other floodplains where a floodway has not been delineated, the following standards shall apply:

Designs must either be certified by a registered professional engineer or by having a minimum of **one (1) permanent** opening on each wall no more than **one (1) foot** above grade. The openings shall provide a total net area of not less than **one (1) square inch** for every **one (1) square foot** of enclosed area subject to flooding below the base flood elevation;

will allow the blocks to be removed by use of the hitch jack.

(E) **Non-Residential** buildings may be structurally floodproofed
(in lieu of elevation) provided a registered professional engineer certifies that:
(1) below the flood protection elevation, the structure and
attendant utility facilities are watertight and capable of
resisting the effects of the base flood;
(2) the building design accounts for flood velocities, duration,
rate of rise, hydrostatic and hydrodynamic forces, the effects
of buoyancy, and impact from debris and ice; and
(3) floodproofing measures will be operable without human
intervention and without an outside source of electricity.

Levees, berms, floodwalls and similar works are not considered floodproofing for
the purpose of this subsection.

(F) Garages or sheds shall be protected in accordance with Section
18-1-7(B) or 18-1-7(E) unless all of the following conditions are met:
(1) The garage or shed shall be non-habitable; and
(2) The garage or shed shall be used only for storage and shall
not later be converted to another use; and
(3) The garage or shed shall be located outside the floodway;
and

residential lot and be accessory to an existing principal
residential structure; and
(5) Below the flood protection elevation, the garage or shed
shall be constructed of flood resistant materials; and
(6) All utilities, plumbing, heating, air conditioning and electrical
shall be elevated above the flood protection elevation; and
(7) The garage or shed shall have a minimum of at least one
permanent opening on each wall no more than one foot
above grade. The openings shall provide a total net
area of not less than one square inch for every one
square foot of floor area; and
(8) The garage or shed shall be less than Seven Thousand
Five Hundred Dollars ($7,500.00) in market value or
replacement cost, whichever is greater and not less than
five hundred (500) square feet in area; and
(9) The garage or shed shall be anchored to resist flotation,
collapse, lateral movement or overturning; and
(10) All flammable or toxic materials, including but not limited to gasoline, paint, insecticides and fertilizers shall be stored above the flood protection elevation; and

(11) The lowest flood elevation of the garage or shed shall be documented and the owner notified of flood insurance implications.

(G) A residential building may be elevated on a crawlspace provided all the following conditions are met:

1. The building shall be designed and adequately anchored to resist flotation, collapse and lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy; and

2. Any enclosed area below the flood protection elevation shall have openings that equalize hydrostatic pressures by allowing for the automatic entry and exit of flood waters. A minimum of one (1) opening on each wall having a total net area of not less than one (1) square inch per one (1) square foot of enclosed area. The openings shall be no more than one (1) foot above grade; and

3. The interior grade of the crawlspace below the flood protection elevation shall not be more than two (2) feet below the lowest adjacent exterior grade; and

4. The interior height of the crawlspace measured from the interior grade of the crawl to the top of the foundation wall must not exceed four (4) feet at any point; and

6. Utility systems within the crawlspace must be elevated above the flood protection elevations; and

7. The bottom of the lowest structural member of the first finished floor (lowest habitable floor) shall be at or above the flood protection elevation.

18-1-8 SUBDIVISION AND OTHER DEVELOPMENT REQUIREMENTS. The City Council shall take into account flood hazards, to the extent that they are known, in all official actions related to land management use and development.

(A) New subdivisions, manufactured home parks, annexation agreements, planned unit developments, and additions to manufactured home parks and subdivisions shall meet the damage prevention and building protection standards of Sections 18-1-6 and 18-1-7 of this Code. Any proposal for such development shall include the following data:
(1) The base flood elevation and the boundary of the floodplain (where the base flood elevation is not available from an existing study, the applicant shall be responsible for calculating the base flood elevation);

(2) The boundary of the floodway when available; and

(3) A signed statement by a Registered Professional Engineer that the proposed plat or plan accounts for changes in the drainage of surface waters in accordance with the Plat Act (See 765 Illinois Compiled Statutes, Sec. 205/2).

(B) Public health standards must be met for all floodplain development. In addition to the requirements of Sections 18-1-6 and 18-1-7, the following standards apply:

(1) No development in the floodplain shall include locating or storing chemicals, explosives, buoyant materials, flammable liquids, pollutants, or other hazardous or toxic materials below the flood protection elevation unless such materials are stored in a storage tank or floodproofed building constructed according to the requirements of Section 18-1-7 of this Code.

(2) Public utilities and facilities such as sewer, gas and electric shall be located and constructed to minimize or eliminate flood damage;

(3) Public sanitary sewer systems and water supply systems shall be located and constructed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters;

(4) New and replacement sanitary sewer lines and on-site waste disposal systems may be permitted providing all manholes or other above ground openings located below the flood protection elevation are watertight.

(C) All other activities defined as development shall be designed so as not to alter flood flows or increase potential flood damages.

18-1-9 VARIANCES. Whenever the standards of this Code place undue hardship on a specific development proposal, the applicant may apply to the Zoning Board of Appeals for a variance. The Zoning Board of Appeals shall review the applicant's request in accordance with Section 14-10-3 of the City of Fairview Heights’ Code of Ordinances. The Corporate Authority may attach such conditions to granting of a variance as it deems necessary to further the intent of this Code.

(A) No variance shall be granted unless the applicant demonstrates that:

(1) The development activity cannot be located outside the floodplain;
(2) An exceptional hardship would result if the variance were not granted;
(3) The relief requested is the minimum necessary;
(4) There will be no additional threat to public health or safety, or creation of a nuisance;
(5) There will be no additional public expense for flood protection, rescue or relief operations, policing, or repairs to roads, utilities, or other public facilities;
(6) The applicant’s circumstances are unique and do not establish a pattern inconsistent with the intent of the NFIP; and
(7) All other required state and federal permits have been obtained.

(B) The Zoning Board of Appeals shall notify an applicant in writing that a variance from the requirements of the building protection standards of Section 18-1-7 that would lessen the degree of protection to a building will:
(1) Result in increased premium rates for flood insurance up to Twenty-Five Dollars ($25.00) for One Hundred Dollars ($100.00) of insurance coverage;
(2) Increase the risks to life and property; and
(3) Require that the applicant proceed with knowledge of these risks and that the applicant acknowledge in writing the assumption of the risk and liability.

(C) Variances to the building protection requirements of Section 18-1-7 of this Code requested in connection with the reconstruction, repair or alteration of a site or building included on the National Register of Historic Places or the Illinois Register of Historic Places may be granted using criteria more permissive than the requirements of Section 18-1-19 (A)(1-5).

18-1-10 DISCLAIMER OF LIABILITY. The degree of protection required by this Code is considered reasonable for regulatory purposes and is based on available information derived from engineering and scientific methods of study. Larger floods may occur or flood heights may be increased by man-made or natural causes. This Code does not imply that development either inside or outside of the floodplain will be free from flooding or damage. This Code does not create liability on the part of the City or any officer or employee thereof for any flood damage that results from reliance on this Code or any administrative decision made lawfully thereunder.

18-1-11 PENALTY. Failure to obtain a permit for development in the floodplain or failure to comply with the conditions of a permit or a variance shall be deemed to be a violation of this Code. Upon due investigation, the Building Official
may determine that a violation of the minimum standards of this Code exists. The Building Official shall notify the owner in writing of such violation.

(A) If such owner fails, after ten (10) days' notice, to correct the violation:

(1) The City may make application to the circuit court for an injunction requiring conformance with this Code or make such other order as the court deems necessary to secure compliance with this Code.

(2) Any person who violates this Code shall, upon conviction thereof, be fined not less than Twenty-Five Dollars ($25.00) nor more than Two Hundred Dollars ($200.00).

(3) A separate offense shall be deemed committed upon each day during or on which a violation occurs or continues.

(B) The Building Official shall inform the owner that any such violation is considered a willful act to increase flood damages and therefore may cause coverage by a Standard Flood Insurance Policy to be suspended.

(C) Nothing herein shall prevent the City from taking such other lawful action to prevent or remedy any violations. All costs connected therewith shall accrue to the person or persons responsible.

18-1-12 ABROGATION AND GREATER RESTRICTIONS. This Code repeals and replaces other ordinances adopted by the City Council to fulfill the requirements of the National Flood Insurance Program including: Ordinance No. 340-'78 (Chapter 18 - Revised Code). However, this Code does not repeal the original ordinance adopted to achieve eligibility in the program. Nor does this Code repeal, abrogate, or impair any existing easements, covenants or deed restrictions. Where this Code and other ordinance easements, covenants or deed restrictions conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

18-1-13 SEPARABILITY. The provisions and sections of this Code shall be deemed separable and the invalidity of any portion of this Code shall not affect the validity of the remainder.

18-1-14 EFFECTIVE DATE. This Code shall be in full force and effect from and after its passage and approval and publication as required by law.

(G) **Abandoned Vehicles.**

(1) Any motor vehicle that is not reclaimed or retrieved from the towing facility or storage facility within thirty-five (35) days after the administrative hearing officer issues a written decision shall be deemed abandoned and may be disposed of in accordance with the provisions of Article II of Chapter 4 of the Illinois Motor Vehicle Code.

(H) **Towing and Storage.**

(1) The administrative fee imposed by the municipality for impounded vehicles may be in addition to any fees charged for the towing and storage, or both, of an impounded vehicle. The towing or storage fees, or both, shall be collected by and paid to the person, firm, or entity that tows and stores the impounded vehicle. The towing and/or storage company shall be entitled to receive a fee from the owner or person entitled to possession of any such vehicle prior to the release of the vehicle. The fee shall be to cover the cost of removing said vehicle and, in addition, any fees for the cost of storage of the vehicle for each day or fraction thereof that said vehicle remained at their storage facility in
compliance with their practices. Fees for towing and storage of a vehicle under this Section shall be the same as those charged pursuant to Section 2-1-5 of this Code.

(2) It shall be the duty of the towing or storage company in possession of the vehicle to obtain documentation issued by the Fairview Heights Police Department confirming compliance with the foregoing requirements and to retain photocopies of that documentation in their files for a period of not less than six (6) months following release of said vehicle. The foregoing information shall be made available to the authorities of the City of Fairview Heights for inspection and copying, upon their request, by the towing or storage company. The towing or storage company is prohibited from releasing any vehicle they may tow within the City of Fairview Heights until and unless they obtain the documentation as noted above.

(I) Administrative Fees.

(1) The administrative fees established by this Section are to be paid by the registered owner, or the agents of the registered owner, of the vehicle involved in the incident leading to custodial arrest regardless of whether that person was operating the vehicle at the time of the incident. Vehicles towed by the Fairview Heights Police Department for any reason other than those listed above shall be released to the registered owner with no administrative fee charged by the municipality. The person purporting to be the registered owner must present proof of ownership, current proof of insurance and possess a valid driver’s license prior to release.

(2) For the purposes of the Section, the administrative fee shall be waived by the municipality:

(a) Upon verifiable proof that the vehicle used in the violation was stolen at the time it was impounded; or

(b) If the vehicle was operating as a common carrier including, but not limited to taxicabs or buses, and the violation occurred without the knowledge of the person in control of the vehicle.

(3) Unless stayed by a court of competent jurisdiction, any administrative fee imposed under this Section which remains unpaid in whole or in part after the expiration of the deadline for seeking judicial review under the Administrative Review Law may be enforced in the same manner as a judgment entered by a court of competent jurisdiction.
(4) This Section incorporates Sections 4/201 through 4/214.1 of the Illinois Vehicle Code to the extent that they are consistent. Where a provision of this Section differs from Sections 4/201 through 4/214.1 of the Illinois Vehicle Code, the provisions of this Section shall be controlling. Enforcement and administration of this Section shall be consistent with the policies and procedures of Section 4/201 through 4/215 of the Illinois Vehicle Code to the extent that said policies and procedures do not directly conflict with the provisions of this Section.

   (c) Demand that the Owner or Person in Charge respond within ten (10) days to said statement to propose or agree upon a course of action that the Chief of Police agrees will abate the Nuisance Activity giving rise to the violation.
   (d) Service of the notice shall be made either personally or by first class mail, postage prepaid, return receipt requested, addressed to the Owner or Person in Charge of the Property, or such other place as is likely to give the Owner or Person in Charge notice of the determination of the Chief of Police.
   (e) A copy of the notice shall be served on the occupant, at the address of the Property, if this person or persons are different than the Owner or Person in Charge, and shall be made either personally or by first class mail, postage prepaid.
   (f) A copy of the notice shall also be posted at the Property after ten (10) days have elapsed from the service or mailing of the notice to the Owner or Person in Charge if the Owner or Person in Charge has not acknowledged receipt of the notice by contacting the Chief of Police.
   (g) The failure of any Person to receive notice as described in this section shall not invalidate or otherwise affect the proceedings under this article.

(2) After the notification, but prior to the commencement of legal proceedings by the City pursuant to this article, if an Owner or Person in Charge stipulates with the Chief of Police that the Owner or Person in Charge will pursue a course of action the Chief of Police agrees will abate the Nuisance Activities giving rise to the violation (which may include eviction of a tenant who is causing or contributing to a Nuisance Activity on the Property pursuant to the Illinois Forcible Entry and Detainer Act, 735 ILCS 5/9-120), the Chief of Police may agree to postpone commencement of legal proceedings for a period of not less than ten (10) days and not more than sixty (60) days.
(3) If the agreed upon course of action does not result in the abatement of the Nuisance Activity within the time period legal proceedings are postponed for, or if no such agreement concerning abatement of the Nuisance Activity is reached within thirty (30) days after notification under this section, the Chief of Police shall request authorization from city council for the corporate legal counsel of the City to commence legal action and/or otherwise seek all remedies available under this article or Illinois law.

(4) If the Nuisance Activity cannot reasonably be expected to be abated within the proposed period of time mentioned above as determined by the Chief of Police (as may be in cases involving the eviction of a tenant under the Illinois Forcible Entry and Detainer Act), then the Chief of Police may request authorization from city council for the corporate legal counsel of the City to commence legal action and/or otherwise seek all remedies available under this article or Illinois law.

(5) Concurrent with the notification procedure set forth herein, the Chief of Police shall send copies of the notice, as well as other documentation which supports legal proceedings, to the City’s corporate legal counsel.

(C) When an Owner or Person in Charge of Property makes a response to the Chief of Police as required above, any conduct or statement made by them in connection with the response shall not constitute an admission that any Nuisance Activities have occurred or are occurring. This subsection does not require the exclusion of any evidence which would be otherwise admissible or offered for any other purpose (including knowledge and notice on the part of said Person in Charge that Nuisance Activity has occurred or is occurring as determined by the City’s police department).

25-5-4 REMEDY. In the event a court of competent jurisdiction makes a judicial finding that certain Property is a Chronic Nuisance Property as defined in this article, the court may order the following remedies:

(A) The Property may be closed and secured against all use and occupancy for a period of time not less than thirty (30) days, nor more than three hundred sixty-five (365) days; or the court may employ any other remedy as deemed appropriate to abate the Nuisance Activity or Activities that have created the Chronic Nuisance Property.

(B) Without notice or bond, the court may enter a temporary restraining order or preliminary injunction to enjoin any Person from maintaining such Nuisance Activities and may enter an order restraining any Person from removing or interfering with real or personal property used in connection with the Nuisance Activities.

(C) In addition to the remedy provided in subsection A and B of this section, the court may impose upon the Owner or Person in Charge of the Property a civil penalty in the amount of up to One Hundred Fifty Dollars ($150.00) per day, payable to the City for each day the Owner or Person in Charge had actual or constructive knowledge of the Nuisance Activities occurring on the Property and failed to abate the Nuisance Activities, and/or for each day the Owner had knowledge the Property had been declared a Chronic Nuisance Property by the Chief of Police and failed to abate the Nuisance Activities.
(D) In addition to the aforesaid remedies, the Owner shall be responsible for payment of the City’s costs, court fees, and attorney fees incurred in seeking enforcement of this article.

(E) In determining what remedy or remedies are appropriate, the City may present, and the court may consider, evidence of other conduct which has occurred on the Property, including but not limited to conduct that creates a disturbance to the neighborhood surrounding the Property.

25-5-5 **BURDEN OF PROOF, DEFENSES, AND CIVIL PENALTIES.** In an action seeking closure of Chronic Nuisance Property, the City shall have the initial burden of showing by a preponderance of the evidence that the Property is a Chronic Nuisance Property as defined in this chapter.

(A) It shall be a defense to an action seeking the closure of Chronic Nuisance Property that the owner of the Property at the time in question could not, in the exercise of reasonable care or diligence, determine that the Property had become a Chronic Nuisance Property, or could not, in spite of the exercise of reasonable care and diligence, control the conduct leading to the findings that the property is a Chronic Nuisance Property.

(B) In determining the amount of any civil penalty requested, the court may consider any of the following factors and may recite the applicable court fines in the court’s order assessing the civil penalty:

1. The actions or lack of action taken by the Person in Charge to mitigate or correct the Nuisance Activities at the Property.
2. Whether the problem at the Property was repeated or continuous.
3. The magnitude or gravity of the Nuisance Activity.
4. The cooperation of the Person in Charge with the City.
5. The cost of the City investigating and correcting or attempting to correct the condition.

25-5-6 **EMERGENCY PROCEDURES.** In the event the mayor and/or the city administrator and/or the city council determine that Property is an immediate threat to the public safety and welfare, the City may apply to a court of competent jurisdiction for interim relief. In such an event, the notification provision set forth in Section 25-5-3 of this article need not be complied with, however, the City shall make a reasonable effort to notify the Owner or Person in Charge prior to any related court hearings.

(A) All remedies available under this chapter are available, including a civil fine as provided in Section 25-5-4 of this chapter if the court finds that the Owner or Person in Charge had knowledge of the Nuisance Activities on the Property constituting a violation of this chapter and Permitted the activities to occur.

(B) In the event the Owner or Person in Charge fails to abate the Nuisance Activity or Activities within a time specified by the court, the court may authorize the City to physically secure the Property against use or occupancy. In the event that the City is authorized to secure the Property, all costs reasonably incurred by the City to secure the Property against use or occupancy shall be made and assessed against the Owner and shall create a lien against the Property. Costs include, but are not limited to costs incurred physically securing the Property, court fees, and attorney’s fees.
(C) The City may use any contractor of its choosing to secure the Property as described in this Section. The City shall prepare a statement of costs incurred and the City shall thereafter submit a statement to the court and the Owner for their review. If no objection to the statement is made within the period required by the court, a judgment for said sum may be entered against the Owner and a lien in that sum may be recorded against said Property. Said lien may be enforced in any manner allowable under Illinois law.

(D) The Owner of Property which a fine or penalty is assessed against shall be personally liable for the payment thereof to the City.

25-5-7 SEVERABILITY. If any provision of this chapter as applied to any person or circumstances is held to be invalid by a court of competent jurisdiction for any reason, the remainder of this chapter in the application of its provision will remain and be in full force and effect, as changed and amended by said determination of invalidity.

25-5-8 CONFLICTS, APPLICABILITY. All ordinances or resolutions, or parts of ordinances or resolutions in conflict herewith, including Chapter 25 (NUISANCES) thereof shall remain and be in full force and effect but shall not apply to and shall be preempted by this chapter with regard to defining and prohibiting “Chronic Nuisance Property in the City.”

permanently cease all infractions. Any person who shall continue beyond the time limit
provided for above shall be guilty, and upon conviction thereof, shall be fined an
